ARTICLE 190

General Statistics

1.—The International Bureau compiles general statistics for each year. To this end, Administrations send to it a series as complete as possible of statistical returns on forms identical with forms C30 and C31 annexed. Table C30 is forwarded at the end of the month of July in each year; but the particulars included in Parts I, II and IV of this table are furnished once only every three years; Table C31 is also forwarded every three years, on the same date. The particulars furnished relate in every case to the preceding year.

2.—Transactions which are recorded in detail are embodied in periodical statements based upon the actual records.

3.—With regard to all other transactions, correspondence of all kinds is counted annually without distinction between letters, post-cards, commercial papers, printed papers, samples and small packets, and every three years at least, the different classes of correspondence are counted.

Each Administration fixes the time and duration of its counts.

4.—In the interval which elapses between the special statistics, the numbers of the different classes are estimated in accordance with the proportions given by the last special statistics.

5.—The International Bureau prints and distributes the statistical forms to be filled up by each Administration. It furnishes to Administrations on application all necessary information as to the rules to be followed, in order to ensure uniformity of practice in taking the statistics.
