

William did not present the property to Kendall Bros. & others to dispose of rubbish taken from many sundry excavations at least possible expense to themselves.

It is most trying for residents in the locality & the sadly neglected look of the grounds must give visitors a bad impression.

I cannot imagine that the powers-that-be would allow such a state of affairs to continue if they were aware of the conditions.

The ground below the Stadium, if not to be built upon, would provide room for several tennis courts at small expense.

Apologizing for troubling you,

Yours faithfully

A. S. Hall
