

Dr. J. F. Snell,
Acting Dean,
Faculty of Agriculture,
Macdonald College P.O., P.Q.

Dear Dr. Snell,

I have your communication of July 3rd, to which was attached copy of the report of the School of Agriculture to the Provincial Minister. I thought it was a particularly good report and I should like to congratulate you on its preparation.

I have written to the Hon. Mr Godbout along the lines you suggested. Your observations in this respect I think are wise.

I shall be in town now for the balance of this week. The Board of Governors meets on Friday, and I am particularly busy until after that meeting, but if you have anything urgent about which you must consult me, I shall be glad if you will make an appointment.

Ever yours faithfully,
