# The "CANADIAN" SAW-SET

PATENTED NOVEMBER 18, 1891

It is made in different sizes. Size No. 2 is made specially for Cross-cut Saws, and is strong enough to set any saw up to No. 10 gauge.  
 It should be placed in a vise or bolted on a plank, as shown in illustration, and worked with the foot.

It strikes a light or heavy blow, as desired, and every blow is the same. It is easily adjusted for any amount of set required, sets every tooth evenly alike, without any danger of breaking, thus making the saw run straight, cut easier and do more work.

— PRICES —

Size No. 1, for Shop use, \$2.00 each, \$21.50 per doz.

" 2, " Cross-cuts, 2.50 " 27.00 "

Made only by
