*Large Crown 8vo. Fully Illustrated, 3s. 6d.*

It has been felt that a life so adventurous and romantic as that of the great Field-Marshal should be enshrined in a volume which, while moderate in price, should also be authoritative, carefully and accurately written, and suitable especially for presentation to boys, both of this and future generations.

The task of producing such a life has been very successfully accomplished by Captain OWEN WHEELER, whose reputation as a writer on military men and military matters is too widely spread to need further reference.

As a

GIFT BOOK FOR BOYS

of all ages this story of a dauntless hero could scarcely be surpassed. His character will remain as an example to the manhood of Great Britain and the Empire, and indeed of all English-speaking races.

The book is

LAVISHLY ILLUSTRATED

with portraits and drawings which practically depict the battle-history of the British Empire during a period of sixty years.
