Board of Trade Buildings.	Building for Toronto Union Mission.
Hospital for Sick Children.	North-Western Fire Hall.
New Upper Canada College.	

The rapid development of the city outside the fire limits renders it impossible to obtain accurate information as to the number and value of the buildings going up. Some of the most splendid specimens of residential architecture in this "city of homes" are now rising beyond the limits within which building permits are necessary to allow of their erection. Never in the history of Toronto have private residences been designed after so substantial and tasteful a fashion. Fronts of brown stone and pressed brick, with beautiful grounds, are
