Edwards Sends Engineers Into Western Section of Camp-Porcupine Believes Big Deal Is On.

PORCUPINE, May 7 .- (From Ou an Up North.)-Are the W. S. Edwards interests to reach into the Pearl Lake section?
Capt. Anchor, of the Dome Extension, in which Edwards is interested, and Dave Allen, manager for W. S. Edwards at the Smith Vet and the Mulholland, entered the Pearl Lake section this week on a scouting expedition, and it is said that the Pearl Lake Gold Mines property was under close scrutiny. The pair of veteran mine men hiked into the section and out again quite as mysteriously as if they were guarding an extraordinary find. Closely following the fispection of property in that section, Gideon Harkmess, secretary to Edwards, appeared in the camp, awaiting reports from the engineers. Not a word is given out relative to the intentions of the Edwards interests, which are closely interwoven with those who hold interests in the Dome, in seeking information relative to mines in the Pearl Lake belt.

REVENGE IS SWEET.

PORCUPINE, May 7.—(From Our Man Up North.)—Fire, like the thief that robbed the chief of police in a big city, is no respector of persons or places. Last night the fire hall, fire engine, hose, and hose carts at the Timmins Townsite were burned. The night watchman saved his life by jumping to the ground in time. The damage amounts to about \$5,000. A cement fire hall will be built and a new fire engine has been ordered. Chas. Fox.

TIMMINS HOLDING

PORCUPINE, May 7.—(From Our Man Up North.)—Word is out to-day, as the sequel to the changing of its business from the Ottawa to the Imperial Bank, that the Timmins syndicate has just placed one of the biggest loans ever made in the north country, half a million dollars, to be used in the development of the syndicate's various interests. This means that on a business basis the syndicate's northern properties are now capable of taking care of themselves.

In addition to mining in the north, it is said that the syndicate is also building a million dollar plant for the manufacture of automobiles in Montreal. That would, of course, be financed down east.

MAIL CONTRACT

# THE PURCHASE OF SHARES

OFFERS A RARE OPPORTUNITY of making an investment in an absolutely honest and genuine Californian oil proposition possessing enormous possibilities. There is NO IN-VESTMENT which offers the chance of MAKING A BIG FORTUNE from a SMALL INVESTMENT that oil does. The DOMINION OIL COMPANY owns 240 acres. valued at \$480,000, of proven oil lands, situated in Coalinga, the richest of all the California oil fields, which are admitted to be the greatest in the world. Their well is drilled to a depth of over 2685 feet, and the sinking is being pushed as rapidly as the most modern machinery will permit, and a big flowing well is practically assured at an early date.

We have honestly and conservatively outlined the possibilities of the enterprise, and conscientiously told you of the progress, without any attempt to magnify.

You have had ample opportunity to carefully study the policy, methods and practice of the management.

You must admit that clean, conservative, modern, scientific, systematic, legitimate business methods are applied to the conduct of the Company's affairs. There has been no attempt made to unduly influence you or to inflate you with wild enthusiasm, or to picture in highly glowing colors untold and fabulous wealth stored away in

You have watched the progress of the DOMINION OIL COMPANY. When we first offered you the Treasury Shares at 50c per share on March 2nd, their well was then drilled to a depth of 2480 feet. To-day their well is over 2685 feet, and at 3000 feet, or sooner, we confidently expect to bring in the same big flow of high gravity oil which the Canadian Coalinga Company struck at that depth.

The following is an extract from a letter received by the President of the DOMINION OIL COMPANY from G. W. Gates of Los Angeles, who is one of the greatest authorities on oil in the United States.

"Your well is over 2680 feet, in a good hole, and making good progress every day; lots of gas and the light oil is now forcing itself up through 2000 feet of water. I do not believe that there is any doubt about your bringing in a great flowing well, but in my belief you will have to go down between 2800 and 2900 feet, or possibly a little deeper, before this is done."

We have been strongly and conscientiously advising you to purchase these shares ever since they were first placed on the market at 50c, and now on the eve of the further advance in the price we want to ONCE MORE ADVISE THEIR PURCHASE. If you have ever lost money through the purchase of oil shares in some company that was not on the square, NOW IS YOUR CHANCE OF GETTING BACK MANY TIMES OVER WHAT YOU HAVE LOST, BY PURCHASING SHARES IN THE DOMINION OIL COMPANY. When the big flow is struck, these Treasury Shares which you can buy to-day for 75c will be immediately selling at many times their present selling price. If \$20.00 is being bid for the shares in the Canadian Coalinga Company, the shares in the DOMINION OIL COMPANY should be worth from \$75.00 to \$100.00 per share. This sounds big, but we honestly believe it, for with the Company's big acreage, honest management and practicallyunlimited possibilities in the way of subsidiary companies, etc., the SHARES IN THE DOMINION OIL COMPANY will look cheap, even at the latter figure.

The Directors of the DOMINION OIL COMPANY are all well-known and highlyrespected, successful business men, and would not be connected with a company that was not sound, or allow statements to be made regarding their Company which were not true. If you do not know these men personally, or doubt what we say regarding their standing, ask R. G. DUN'S, BRADSTREET'S, or, better still, your own Banker, regarding them.

MONDAY IS THE LAST DAY ON WHICH THESE SHARES CAN BE PUR-CHASED AT 75c. DO NOT DELAY, BUT SEND IN YOUR APPLICATION AT ONCE. PROSPECTUS AND FULL PARTICULARS CHEERFULLY FURNISHED UPON APPLICATION. WRITE US AT ONCE-TO-DAY-NOW.
