heavier.

The run of hogs has been light all week. 1110 on Monday, 301 on Tuesday. 1146 on Wednesday and between 600 and 700 Thursday. On Monday the market opened at last week's quotations of 20% of the week a decline of 75c per cwt. has been in effect, as foreshadowed by the packers, making the price 19% of fed and watered. Except for a few odd lots of extra selects sold to individual firms the 19% or price has been held to during the week. The general opinion of the commission houses is that the market for hogs will hold steady all next week at the decline, with the prospect of advance if certain outside conditions materialize. Harvesting operations are well over, and with more time on their hogs in larger numbers. As against this, the grain crop is good, especially good practically all over the province, and with an abundance of feed there may be no disposition to rush the market. In any event it looks as tho the market would hold steady at the 18% of ed and watered, 18% oweighed off cars and 17% of o.b.

Sheep and Lambs.

The sheep trade, with approximately 3500 head of sheep and lambs, has held steady for the sheep all week, but the lambs on Monday sold from 20c to 2%, not many at the latter price, and on Tuesday the market firmed up a bit, selling at 20% c, and on Wednesday the lamb trade was practically 50c higher, selling at 22c and firm at that, with the week's trading closing up steady at the advance.

Calves—Briefly summed up we would say that all classes of calves are strong and wanted.
