# THE LAND OF DON QUIXOTE.

No wonder the Spaniards are proud of their country, some of the most picturesque spots to be found in the world are in the southern portion of Spain—noted for the growth of its paims along the river banks, and it is on the banks of the rivers that most of the laundry work is done. What a contrast to the American methods of laundering, but in his country where everything is moving at the pace of an electric wheel, so it is with laundry work—machinery is the propeller and the Swiss Laundry has the best in Canada. Having the largest and best plant means turning out the best work in the in Canada. Having the largest and best plant means turning out the best work in the shortest possible time. You cannot afford not to know the Swiss Laundry. Telephone in the morning for a wagon to call and your parcel will be landed in our works in the afternoon, and if you desire it, delivered to you the following day. Do you wish anything better than that?

## Swiss Steam Laundry,

The principal business of the Ross Government is not the conservation of the public with the of its members. They are nearly all up to the neck in private corporations. Their connection with the Government seems to be but a secondary affair compared with their

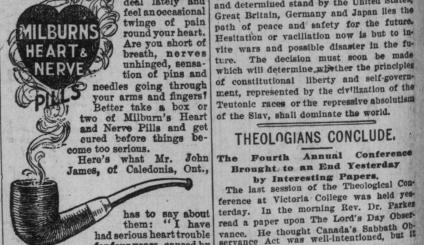

THE UNITED STATES GETTING

Harper's Weekly is an article by Hon. John E. Procter, entitled "Saxon or Slav? The Eastern Question." The writer regrets that Great Britain in guaranteeing the integrity of China. The establishment of an open dcor policy 'n China would have allowed the United States to participate in the trade of that country. As it is, China has been divided into "spheres of influence," which here to tell the is the first step towards the partitioning of whole truth, wit- the Chinese Empire among the European ness, and you powers. Having refused or neglected to had better tell join with Great Britain in securing an open it .- From report door in China, the United States now finds of North Water- itself out in the cold. Mr. Procter fears that one result of the partition of China will be to drive the United States out of Chinese markets. "This country," says he, "is threatened

with a serious danger, which may be averted by a firm stand with England, Japan and possibly Germany, for what is known as the open-door policy. This danger is not so much in the threatened loss of the markets of Asia, potential as they may prove in the future, as it is in the driving of Eng and and her colonies into an Imperial rederation and customs union by our presen tariff policy at home, and a hesitating an vaciliating policy in the Far East.
"If England is forced, as an alternative,

into the 'sphere of influence' policy in China she will obtain as her sphere the region drained by the Yangtse River, supposed to her control, and she will have a grand ag gregate of 650,000,000, or nearly one-hall the population of the globe, with a capacity
