

A WORD OF THANKS TO MY CUSTOMERS.

I present you with an ALMAMAC for 1859, and my warmest thanks for your support during another year.

The year which has just expired has been marked by great monetary difficulties, not in Canada alone, but throughout the world; but we hope that we have got over the worst, and that better times are again dawning upon us.

The year has also been unfavorable to the farmer. Crops have not turned out well, still we trust the yield will be much better than was anticipated, and that good prices will tend much to the restoration of a healthy and liberal trade.

I feel myself under many obligations for the continued support which you have extended to me through the year, and I again solicit a continuation of those favors which you have given me for a number of years. My stock has been carefully replenished, and will be sold at low rates. I shall still endeavor to supply your wants on satisfactory terms; and by strict attention thereto, and to my business, maintain your approbation.

A HAPPY NEW YEAR TO ALL.

C. HAIGHT.
