Broomhall's Estimates.

Broomhall's Estimates.

Broomhall estimates the wheat and flour shipments for Monday next, exclusive of North America, at 11,200,000 bushels, against 12,240,000 actual last week. Of this total. Europe will take about 10,400,000

The total shipments last week were 14,032,000, and 11,244,000 a year ago.

Arrivals of breadstuffs into the United Kingdom will aggrégate about 3,600,000 bushels. He predicts that there will be a fair increase in quantity of breadstuffs on passage to the United Kingdom.

Oats—Canadian western oats, No. 2, 40c; No. 3, 88c, lake ports; Ontario, No.

Weekly Argentine Cable.

Weekly Argentine cable: Wheat shipments this week, 920,000, against 1,376,000 last week 2,890,000, against 3,417,000 last week 2,890,000, against 3,417,000 last week and 2,487,000 last year.

Visible supply wheat now, 1,120,000, against 1,320,000 a week ago, 440,000 a year ago, and 1,440,000 two years ago. Corn now, 4,735,000, against 4,878,000 a week ago, 3,413,000 a year ago, and 1,940,000 two years ago.

The wheat market is quiet, with a mode-rate demand. Arrivals from the interior are fair, but the quality is unsatisfactory. The prospects for the wheat crop have improved as a result of good rains in the drought sections. The corn market was steady, with no pressure to sell. Arrivals from the in-terior are liberal, with the quality satis-factory.

Australia's Shipments.

Australia.—Wheat shipments this week,
448,000, against 528,000 last week and 280,000

Modern Miller (St. Louis) says. Plowing by winter wheat farmers is progressing under favorable conditions. More farmers will give the ground two plowings, one early, and one just before seeding, considering this of benefit to the soil. Seeding will generally be later than usual in a large area, especially in sections where the Hessian fly infested the crop last year.

Snow says: Advices to day show material frost damage to wheat in East Central Saskatchewan, where the best crop in Canada was grown this year. Light frost on Aug. 17 and heavier the following week did more damage than was believed at the time. Some late grain is still until lead fains having caused delay. cut, local fains having caused delay

ST. LAWRENCE MARKET.

Receipts of farm produce were 600 bushels of grain, 25 loads of hay, one load of straw and a liberal supply of potatoes.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy upbuilding, SPOT-TOUCHING remedy upbuilding, SPOT-TOUCHING remedy and quickly. Just drop me a line like this: Dr. A. E. Robinson, 3933 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain, ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free. Prices in most instances were about on a par with those of the preceding day, tho some fruit which reached the market in rather poor shape was disposed of at lower figures.

Peaches were again the big arrivals, and sold readily at steady prices.

wheat—Market opened about he higher, with local buying on the strength of cables, but offerings increased at the advance, and prices eased again. Northwestern markets were very strong, with milisthe best buyers. The undertone to the market was firm, but trade was light and mostly of a local character. We do not look for any marked change in prices pending the holiday.

Corn—Market ruled very dull, but firm, during the early part of the session, easing towards the close. The cash situation continues heavy, with good receipts and poor demand. We are inclined to look for a narrow market for the present.

Oats—Market, opened firm, out eased off with light trade, shorts having covered freely yesterday. In regard to the talk of export demand, seaboard shippers wire that prices are several cents too high as compared with Russian offerings. We think prices are apt to sag again moderately.

J. P. Bickell & Co. say at the close of the market:

Wheat—While the tendency was higher and undertone stubborn, the market was choppy and nervous. Sentiment, which was bullish, was intensified by unexpected advance in continental markets, and rumors that considerable wheat had been worked for expert, but exporters claim that bids were few and fair between, and several cents out of line. While we realize it will be hard for, bulls to bring about any permanent advance until we reach a level which will permit our finding an outlet for a portion of our surplus, we are not blind to the fact that sentiment will have much to do with the shaping of values in the immediate future. We believe it advisable to accept profits on breaks, as, until something develops, market will continue more sensitive to bullish rumors and possibilities than to bearish facts.
