Union Pacific and U. S. Steel Mining Market More Active -McIntyre and Porc. Crown

The mining stock market yesterday was more active than for some days, but had an irregular tone. A few issues displayed a stronger tendency while others weakened. On the whole the undertone was better probably due to the cooler weather and more activity would not come as a surprise.

Newray came into the limelight again in the Porcupine list making a new high record at 44 an advance of a new high record at 44 an advance of a surprise. Metal.

New York, Aug. 1.—Stocks madesubstantial and rather general recoveries today from their lethargy of recent sessions under lead of investment issues, notably Union Pacific and U. S. Steel. The former made an extreme gain of 2 1-2 points to 139 1-4 on very large dealings, and Steel was in demand towards the close at 87, with individual transactions of 1000 to 2300 shares.

The excellent statement of earnings for June reported by leading lines, particularly the Pennsylvania system, was effective in stimulating speculative confidence. Other favorable factors included the decision to place Maywell common and second prefers.

Peterson Lake after a protracted period of quiescence became active, and sold up to 24½, and advance of almost 2 points. Timiskaming went up to 57, but closed lower at 56. Lorrain was stronger, selling up ½ point to 26½.

STUDEBAKER DIVIDEND.

NEW YORK, Aug. 1.—Studebaker declared yesterday the regular dividend on the preferred stock and 2 1-2 one theory to account for today's sell-per cent. on the common, placing the process of the fiscal year to date the total is 381,888 tons, evidencing that the full year will exceed that ended last MONTREAL, August 1.—Canada Cement was a weak feature selling off over two points today. As the last dividend was paid February 15th, a second half yearly dividend should be due on the 15th of this month. It seems unlikely now that this will be forthcoming, and this was advanced as the preferred stock and 2 1-2 one theory to account for today's sell-per cent. on the common, placing the per cent. on the common, placing the common stock on a straight 10 per cent. basis. Heretofore the dividend was 1 1-2 and 1 per cent. extra. Maxwell Motors also declared 2 1-2 per cent. on the common stock.

The National Steel Car Company, Limited, has declared the regular quarterly dividend of 1 3-4 per tent. on the preferred stock, payable Oct. 1 to shareholders of record Sept. 30. The books will be closed from Sept. 30 to Oct. 15.

LONDON, Aug. 1.—Money and discount rates were quiet today.

The general tone of the stock market was satisfactory, but business did not expand. Strength in shipping shares, however, was a feature, and oil stocks in and foreign issues were firm. The mining group was quietly supported, and speculative Russians hardened, but American securities were idle. The closing was steady.
