

## CLASSIFICATION OF EYE DISEASES.

| <i>Conjunctiva,</i>                      |     | <i>Crystalline Lens.</i>                         |     |
|------------------------------------------|-----|--------------------------------------------------|-----|
| Hyperæmia.....                           | 14  | Cataract Incipient Senile.....                   | 23  |
| Conjunctivitis Catarrhal Acute.....      | 117 | " Mature Senile.....                             | 9   |
| " " Chronic.....                         | 36  | " Traumatic.....                                 | 4   |
| " " Phlyctenular.....                    | 40  | " Aphakia.....                                   | 1   |
| " Granular with Pannus.....              | 21  | " Secondary.....                                 | 1   |
| " " with Ulcer of Cornea.....            | 6   | " Pyramidal.....                                 | 1   |
| " " and Trachoma.....                    | 32  |                                                  | 39  |
| " " Acute.....                           | 5   | <i>Vitreous Humour.</i>                          |     |
| " " Traumatic.....                       | 1   | Hæmorrhage into Vitreous.....                    | 3   |
| " Purulent, Acute.....                   | 7   | Opacities in Vitreous.....                       | 2   |
| " " of Infancy.....                      | 9   | Foreign Body in Vitreous.....                    | 1   |
| Ammonia Burn of Conjunctiva.....         | 2   | Musce Volitantes.....                            | 4   |
| Potash Burn of Conjunctiva.....          | 1   |                                                  | 10  |
| Trierygium.....                          | 5   | <i>Eyeball.</i>                                  |     |
| Foreign body in Conjunctiva.....         | 4   | Sarcoma.....                                     | 1   |
| Ecchymosis of ".....                     | 8   | Contusion of Eyeball.....                        | 2   |
| Strumous Ophthalmia.....                 | 1   | Phthisis Bulbi.....                              | 4   |
| Diphtheritis.....                        | 1   | Wounds of Eyeball.....                           | 2   |
| Polypoid growth in Conjunctiva.....      | 1   | Neuralgia.....                                   | 1   |
| Warty ".....                             | 1   |                                                  | 19  |
| Wound of ".....                          | 1   |                                                  | 19  |
|                                          | 314 | <i>Anomalies of Refraction and Accommodation</i> |     |
| <i>Cornea and Sclerotic.</i>             |     | Hyperopia.....                                   | 30  |
| Abresion of Cornea.....                  | 1   | Myopia.....                                      | 17  |
| Corneitis Phlyctenular.....              | 71  | Astigmatism.....                                 | 10  |
| " Suppurat ve.....                       | 2   | Hyperopia and Presbyopia.....                    | 4   |
| " Interstitial.....                      | 9   | Presbyopia.....                                  | 10  |
| " Ulcerative.....                        | 28  | Asthenopia.....                                  | 14  |
| Ulcer Superficial.....                   | 20  |                                                  | 85  |
| " Herpetic.....                          | 1   | <i>Eyelids and Orbits.</i>                       |     |
| Opacities of Cornea.....                 | 15  | Blepharitis.....                                 | 57  |
| Foreign Bodies in Cornea.....            | 52  | Eczema of Lids.....                              | 1   |
| Wound of ".....                          | 4   | Abscess ".....                                   | 5   |
| Facets of ".....                         | 2   | Contusion ".....                                 | 1   |
| Staphyloma of ".....                     | 3   | Entropion.....                                   | 2   |
| " Sclerotic.....                         | 2   | Ectropion.....                                   | 6   |
| Episcleritis.....                        | 6   | Hordeolum.....                                   | 9   |
|                                          | 216 | Meibomian Infarction.....                        | 1   |
| <i>Iris, Choroid and Ciliary Region.</i> |     | Chalazion.....                                   | 5   |
| Iritis.....                              | 17  | Symblepharon.....                                | 2   |
| " Syphilitic.....                        | 6   | Blepharospasm.....                               | 2   |
| " Rheumatic.....                         | 5   | Rodent Ulcer.....                                | 1   |
| Irido-Choroiditis.....                   | 4   | Periorbital Peri. stitis.....                    | 1   |
| " Cyclitis.....                          | 3   | Trichiasis.....                                  | 6   |
| Posterior Synechia.....                  | 1   | Edema of Lids.....                               | 3   |
| Anterior ".....                          | 2   | Burn.....                                        | 3   |
| Choroiditis.....                         | 2   | Wound of Eyebrow.....                            | 1   |
| Glaucoma Subacute.....                   | 3   | Cysts.....                                       | 11  |
| " Chronic.....                           | 6   | Epithelioma of Lids.....                         | 1   |
| Cyclitis Traumatic.....                  | 1   | " " Brow.....                                    | 1   |
| Irido-Dialysis.....                      | 1   | Naevus.....                                      | 1   |
|                                          | 51  | Ecchymosis.....                                  | 1   |
| <i>Optic Nerve and Retina.</i>           |     | Emphysema of Lids.....                           | 1   |
| Retinitis Pigmentosa.....                | 2   |                                                  | 122 |
| Detachment of Retina.....                | 2   | <i>Muscular Affections.</i>                      |     |
| Hyperæsthesia.....                       | 1   | Strabismus Convergens.....                       | 15  |
| Optic Neuritis.....                      | 1   | " Divergens.....                                 | 2   |
| Amblyopia from Nerve Atrophy.....        | 5   | Paresis of 3rd Nerve.....                        | 3   |
| " Tobacco.....                           | 1   | " of 6th ".....                                  | 1   |
| Neuro-Retinitis.....                     | 1   | " of 7th ".....                                  | 1   |
| Atrophy of Optic Nerve.....              | 12  | " of Accommodation.....                          | 2   |
| Chromatopsia.....                        | 1   | " Orbic. Oculi.....                              | 2   |
| Sun-blindness.....                       | 1   | Mydriasis.....                                   | 3   |
|                                          | 27  | Myosis.....                                      | 2   |
|                                          |     |                                                  | 31  |
