The Senate note with satisfaction an increase of contributions to the Bursary Fund proportionable to the demands made on it in consequence of the increased attendance of students.

This year two students, viz., Messrs. Lewis and Smith, attained the degree of B. D. The papers of these gentlemen manifested remarkable proficiency in their studies. It is hoped that the system of giving pass diplomas to the ordinary graduates, introduced this year, will prove convenient and satisfactory to the presbyteries of the Church.
