

THE EVENING TIMES-STAR, ST. JOHN, N. B., SATURDAY, SEPTEMBER 6, 1924

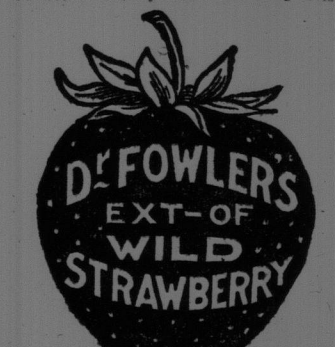

6 WRECK SURVIVORS ON RAFT ARE SAVED

Found at Sea on Planks
Lashed Together After
Schooner Sank.

New York, Sept. 6.—Six victims of the recent hurricane were brought to New York on the Munson Line steamship Southern Cross. They were rescued off the coast of North Carolina about 850 miles southeast of New York.

The men were the survivors of the crew of nine belonging to the 1,800-ton four-masted schooner Samuel W. Hathaway, owned by Crowell & Thurlow of Boston, which foundered on Aug. 26. The master of the schooner, named Elliott, who is said to live somewhere on Long Island, and two other members of the crew are believed to have been drowned unless they were picked up by a passing vessel. The men were exhausted when they were picked up by the Southern Cross, as they had been drifting about on a roughly constructed raft for four days. They had very little to eat or drink.

FOR COLIC AND CRAMPS PAINS IN THE STOMACH THERE'S NOTHING TO EQUAL

It has been in use for the past 50 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly.

Do you get "Dr. Fowler's" when you ask for it. Don't experiment with some new and untried remedy.

Put up only by The T. Millburn Co., Limited, Toronto, Ont.

THE NEW PREPARED REMEDY
THERAPION NO. 1
THERAPION NO. 2
THERAPION NO. 3
For the Bladder, Kidney, No. 1 for Bladder & Kidney Disease. No. 2 for Chronic Nephritis. No. 3 for Acute Nephritis. Sold by leading chemists. Price in bottles 25c. Do not take cheap imitations. Dr. T. Millburn Co., Limited, Toronto, Ont.

SURE RELIEF FOR WOMEN'S DISORDERS

10 Days' Treatment Free

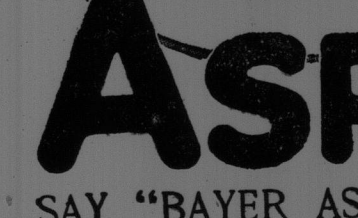

Orange Lily is a certain relief for all disorders of women. It is applied locally, and is absorbed into the suffering tissue.

Dead waste matter in the congested region is expelled, giving immediate mental and physical relief. The blood vessels and nerves are toned and strengthened, and the circulation is rendered normal.

This treatment is based on strictly scientific principles, and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price, \$2.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for 10 days, worth 75c., will be sent free to any suffering woman who will send for it.

Enclose three stamps and address Mrs. Lydia W. Ladd, Windsor, Ont.

SOLD BY LEADING DRUGGISTS EVERYWHERE

SAY "BAYER ASPIRIN" and INSIST!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 24 years.

Safe Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing Co., Ltd., of Germany. It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

WHAT TO EAT TO PUT IRON IN YOUR BLOOD AND MAKE YOU STRONG

PHYSICIAN TELLS HOW IRON-CONTAINING VEGETABLES SUCH AS 'ENTILS, SPINACH, ETC., WHEN REGULARLY TAKEN WITH ORGANIC IRON BUILD GREAT STRENGTH AND ENDURANCE

"At their own doors—in the very garden of their own homes—lies the source of the most valuable tonic and strength-builders known to medical science," said Dr. Emil Sauer, well known New England physician, when consulted recently.

Dr. Sauer further said: "If your daily diet contains an abundant amount of iron you are giving your body the red blood food it craves. But if your blood lacks iron and is thin, pale and watery you cannot expect to be strong and well. On the contrary, your nerves become weakened and you become irritable, fussy and easily upset. In such cases, what you need is iron—organic iron to remove the cause of your trouble, and the moment organic iron is supplied it is often wonderful how quickly your multitudes of symptoms will disappear and how strong and vigorous you will become." But be careful to distinguish between ordinary metallic iron which people usually take and true organic iron. Metallic iron

is just as it comes from the action of strong acids on iron filings. It is a true red blood food, like the iron in your blood itself. It is the iron in spinach, lentils and peas. In fact, if you will eat a pint or two of spinach, half a pint of lentils and three or four hard-boiled eggs each day you will probably not need to take any other form of organic iron. But to take a specimen of your blood and make a "blood count" of your red blood corpuscles, then take Nuxated Iron for a month and have a new "blood count" made and see how your blood corpuscles have increased and how much stronger and better you feel. See how the color has come back to your cheeks, how steady and strong your nerves have become. At all druggists.

ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

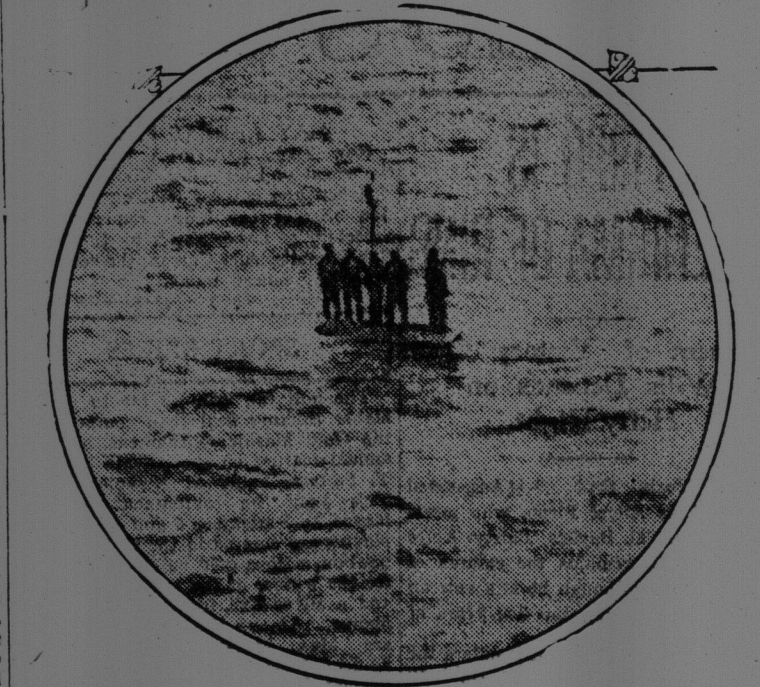

NUXATED IRON

Ask for our list of offerings selling to yield 4 1/2 p. c. to 7 p. c. Every investor should have a copy of this list. Correspondence invited.

Charlottetown P. E. I. Halifax N. S. ST. JOHN, N. B.

RESCUED FROM RAFT ADRIFT IN OCEAN

Here are More Prize Winners and Notes on Some Features.

The curtain for St. John's excellent 1924 Exhibition will ring down tonight at 11 o'clock. The entertainment feature this year has been on a bigger scale than anything hitherto attempted. The balloon ascension act, the light diving feature and the wild west show earning the applause of thousands in packed chairs of the St. John Playgrounds Association as follows:

Trene Powers and Mildred Pike, one hat each; Phyllis Wilson, three second prizes; and Mildred Pike, one second. Special mention was made of the military collection made by the girls of the Exhibition Association, under the direction of Miss Alice Dever and the art display by the children of Centennial, where Miss Hawker is supervising.

A particularly nice piece of work was a little luncheon table and set from Centennial, with examples of arts and crafts produced for the first time this year. This included crocheted mats, hand-painted paper plates, doily, crocheted paper drinking cups and centre vase decorated with colored sealing wax in pretty effect.

Besides the general prizes given by the Exhibition Association, other gifts, donated by interested citizens, were awarded to the children for meritorious work.

The playgrounds booth attracted considerable attention throughout the week and many spectators watched with interest the various contests. The sand pile which was placed in the centre of the booth.

The girls whose work constituted the collection for which the diploma was awarded were May Stubbs, Margaret McCormick, Lillian Hawker, Pearl Fraser, Reta Allan, Mary McCormack, Ray Murphy, Ada Brinkley, Mildred Pike and Olive Wanamaker.

Vocational Display.

The vocational home-making display, which is under the direction of the New Brunswick Vocational Education Board, is again a feature of the St. John Exhibition this year and is of even more interest than ever on account of the fact that St. John hopes to have its own vocational school ready to carry out the same class of work as that exhibited.

The department is now operating night schools at Moncton, Fredericton, Milltown, Campbellton and Edmundston, and day schools at Woodstock and Edmundston. A summer school is also held every year at which teachers are instructed in millinery and dressmaking, methods of teaching, toilet, color and costume design, etc.

Particular interest is centred in the exhibits of work from the four units of the evening school course in clothing. The first shows a kimono nightgown, costume slip and kimono dress; the second a one-piece dress and a third a kimono nightgown and a dress form and an afternoon dress and the fourth, renovation and silk dress of children's garments.

Some examples of work done at the summer school are also on display. Included in this is a collection of records made in the methods in which books are compiled from clippings and cuttings illustrating patterns, materials, plans, sketches, forms, etc.

The booth is under the direction of Miss Rheta M. Inch of Fredericton, who is assisted by Miss Jennie Belyea of Moncton, and Miss Sarah Barnett, who is now at her home in Hartland, has already completed the first year of her course at Colby College. Miss Belyea will leave soon for New York, where she will enter upon a course of study at Columbia University Teachers' Training School. Miss Sarah Barnett, who is now at her home in Hartland, has already completed the first year of her course at Colby College. Miss Belyea will leave soon for New York, where she will enter upon a course of study at Columbia University Teachers' Training School.

Made in St. John.

A leading merchant of Fredericton wants the Made-in-St. John exhibit for the Fredericton fair. That is, the exhibit, but next year there will be a still bigger and better exhibit in St. John than at this year's fair. That is already the wish of the exhibitors, who are delighted with the result of their co-operative effort to boost industrial St. John. In the opinion of many visitors it is the most interesting and surprising feature of the fair.

Because of a lack of enough space, and the hurried preparation, the display is cramped, but it will fill more space and be still more varied next year.

Consider some of the wants that may be supplied by St. John-made goods.

Those requiring material in metal may get all kinds of mill metal, sheet metal, wire, pipes, valves, boiler, valves and horse-nails, lead pipe, sheet metal, axes and edge tools, acetylene lighting system, welded or riveted tanks, piece tinware, ash barrels, wire, wire, auto radiators and parts, electro plating in gold or silver, electros for gutters and cave troughs, bolts and nuts, oil cans, fire-escapes, fire-doors, cornices, saws of all kinds, valves, auto and carriage springs, steam, water and air gauges, hydraulic pumps, batteries, metal toys, and various products of iron and brass foundry.

The builder can get granite, bricks, lime, lumber, art glass and other doors, hardwood flooring, elevators, ladders, roofings, roof coatings, tiles and wood-gutters.

The householder can get furniture and polish, mattresses, mats, pottery, crockery, glassware, picture frames, incense burner lamps, rugs, stove linings, trunks, hammocks, canvas coat bags, tents, awnings, radio sets and equipment, candles and candlesticks.

In the line of foods and drink there are all the products of the baker's art, including bread and biscuits, butter, cream, molasses, pickles, pie fillings, pork, packing products, sausages, sugar, pickles, vinegar, marmalade, jams, carbonated waters, beers and baking powders.

The horseman may secure harness, horse blankets, wagons, carriages and sleighs and dump carts.

In clothing there are men's and women's clothing, hosiery, millinery, men's

CHRISTIAN SCIENCE SOCIETY

Service Sunday, 11 a. m. Subject: MAN

Wednesday evening meeting at 8 o'clock. Reading Room, Church edifice, corner Carleton and Peel streets. Open week days 8 to 8 p. m., except Saturday and legal holidays.

hats, fur garments, aprons, hat shapes and boots to order.

The sportsman may get fishing rods and flies, tents, boats and duck decoys.

The farmer may get fertilizer, crushed lime, bags, barrels, chicken food, extension ladders and twines.

There is a variety of other products which includes pulp, street cars, cotton goods and yarns, leather, automobile school desks and furniture, soda fountain fruits and juices, showcases, printers' rollers, disinfectants, embossing, and some items that have doubtless been overlooked.

When the people of St. John and visitors from abroad look upon the display of these varied products they cannot but realize that industrially St. John has many craftsmen who can do good work, and that the future, when times everywhere have improved, should witness a great expansion of industry.

"Do you know why this exhibition is so good in its department?" a lady asked. "Times-Star man last evening. She answered her own question by going on: 'It's the spirit of the people—the co-operation. And without that we never can get anywhere.'"

TOBACCO STAINED TEETH

Made Flashing White—or No Cost.

Tobacco stained teeth spoil appearance and self-respect. To whiten them quickly and safely—use Bleachodent.

Bleachodent is a safe, reliable, and effective tooth whitener. It removes all stains, including those from tobacco, coffee, and tea. It is used simply by brushing the teeth with the powder and rinsing with water.

Elbert Hubbard spent 14 years writing "Little Journeys to the Homes of the Great."

ECZEMA

You can no longer expect to cure eczema by scratching or using harsh remedies. You can cure it by using the new Eczema Ointment.

The new Eczema Ointment is a safe, reliable, and effective treatment for all forms of eczema. It is used simply by applying the ointment to the affected area and allowing it to dry.
