## CANOE UPSET; LADS THROWN OUT

Rescue at Renforth Yesterday by Royden Foley in His Motor Boat.

A canoe upset at Renforth yesterday and considerable excitement ensued until the two young lads who had been paddling the light craft were picked up by Royden Foley in his motor boat. The boys, "Gwen" Logie, son of Dr. A. E. Logie, and George MacDonald, had been paddling around the shore near Renforth and were about 100 yards away from the entrance to Barber's Cove when the rough water, caused by the northerly wind sweeping across the long expanse from the end of Long Island, caught their canoe broadside and turned it over. Both lads were first-class swimmers and, under ordinary circumstances, could have made their way to shore without difficulty, but the water was cold and they were hampered by their clothes. They took no chances, but clung to the canoe. Mr. Foley's motor boat was drawn up beside the government wharf, about 300 yards from the scene of the accident, and he was alongside the overturned craft in a very short time, picking the boys up in a little trouble and bringing them and their canoe to the wharf. Other canoes and boats, including the Renforth Athletic and Outing Association's lifeboat, were launched promptly when the accident was seen, but the motor boat was faster and they were not needed.

## JUNE BRIDES

Matthews-Warnock.

A very pretty wedding took place at 191 Prince street, West St. John, this morning at 6:30 o'clock when Miss Lilian Parkhill, daughter of Captain and Mrs. E. H. Warnock was united in marriage to Russell Blair Matthews, son of Mr. and Mrs. R. F. Matthews, of L'Etete, St. George, N. B. Rev. Charles Freeman of the Charlotte street Baptist church performed the ceremony in the presence of relatives and friends. The bride, who was given in marriage by her father, wore a suit of navy blue crepe with a French hat of grey felt, crepe de chine, grey veil and a white crinoline scarf, which was the gift of the groom. Her shoes and stockings were grey and she carried a bouquet of Ophelia roses and lilies of the valley. The bride was attended by Mrs. A. L. Smith as matron of honor, and the bride's mother wore a dress of navy blue satin and the groom's mother was gowned in black satin. The bride's sister, Miss Jennie Warnock, who played the wedding march, wore a gown of Copenhagen blue taffeta.

The house was prettily decorated with apple blossoms, white lilac, white ribbons and ferns and the ceremony took place under an arch of apple blossoms, lilac and ferns. Following the ceremony a dainty wedding breakfast was served. The guests at the wedding were received by the bride's cousins, Miss Violet Moore and Miss Jessie Evans, and breakfast was served by a number of the bride's friends. Those serving were Miss Ruth Stackhouse, who wore a gown of canon crepe with hat to match, Miss Gladys McNutt, who wore navy taffeta and a large black hat; Miss Grace Kierstead, who was gowned in orchid silk, net over satin and wore a large picture hat; Miss Jessie Evans, who wore shot silk taffeta with hat to match and Miss Mabel Malling, who was gowned in grey organdie trimmed with roses and wore a black hat.

The wedding gifts were numerous. The gift of the firm of O. H. Warwick and Co., with which the bride was employed, was a dinner set and tea set, and the gift of the employees of the firm was a cut glass water set. The groom's gift to the matron of honor was a pearl rope necklace and to the bride's sister, Miss Jennie, a pearl onyx ring. The happy pair left on the Boston train amid a shower of confetti. After an extended honeymoon they will make their home at L'Etete for the summer. Many friends gathered at the train to wish the bride and groom a long and happy married life.

## ALFRED CLARK IS REPORTED MISSING

Not Seen Since Work on Last Wednesday and Wife is Anxious.

The sudden and unexpected disappearance of Alfred Clark, an employee of the coal department of the Maritime Rail Co., of this city, on last Wednesday, has caused a feeling of intense anxiety to his wife who, with her four small children, resides at 41 Marsh street.

Mrs. Clark told a Times reporter this morning that her husband left for his work as usual on last Wednesday morning and that she had not seen him, nor heard any tidings of him since. He was in the habit of taking his noon lunch with him, so she did not expect him at midday, but when he did not return home at night she was greatly alarmed, fearing that something had happened to him.

On visiting the Company's plant on Thursday morning Mrs. Clark was informed that her husband had worked there all the previous day but had failed to show up that morning. One of his fellow workmen told of hearing him say that he was going to Montreal, but his wife said that she had not been aware that this was his intention. Mr. Clark is about thirty-three years of age, rather tall and clean shaven. The thumb on his right hand is missing and the index finger badly crippled through an injury. Mrs. Clark said she would welcome any news of her husband.

LONDON, ONT., EXPECTS

A SAVING OF \$40,000  
The London, Ont., Free Press of June 14 contains the following reference to the accomplishments of the Citizens' Research Institute at that city. According to the Free Press the city expects a saving of \$40,000 this year from the administrative survey made by the institute, with which R. Fraser Armstrong, C. E., of St. John, is associated.

"A survey by the Citizens Research Institute of Canada of all civic departments directly under the jurisdiction of the Council was recommended by No. 1 committee last night. The total cost will be approximately \$5,000. Mayor Wenige stated that the survey of Victoria Hospital will save the city \$40,000 this year, and it would be well worth the cost to have a complete civic survey made. It may be necessary to create an overfund to pay for the work, but the aldermen felt that would be all right to do in view of the results to be attained."

## The J. & S. Valve Reseater

The latest invention for the man who loves to have his car tuned up to correct pitch and doing the most miles per gallon.

It corrects a leaky Valve in three to five minutes, and is the only tool of its kind that trues the Valve and Valve Seat from one central bearing, insuring a true surface at an accurate angle to the Valve stem.

No Valve can be accurately trued up by means of emery powder, and no valve so treated is gas-tight. To true up a Valve in a lathe is a lengthy process. The J. & S. way is simple, easy and accurate.

Come in and let us show you this efficient hand-tool, which with two or three turns produces an absolutely gas-tight Valve.
