THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 20, 1920

Do not make the mistake of thinking that cocoa is only an occasional drink. It is so valuable a food beverage, so rich in the elements of nutrition, so deli-

cious in flavor, and so wholesome that it should be used regularly and often. Booklet of Choice Recipes sent free.

marks a definite advance beyond the previous acts and it is well that all our people should, in taking this step, be fully aware of the new principle infully aware of the new principle involved.

It is also most desirable that they recognize that the new federal law which may be used to prohibit interprovincial import will only prohibit the actual importation of the liquor itself and will not in any way interfere with the "short-cricuit" arrangement to which exception is now taken. But it will go a long way to curtailing the amount available for distribution in some provinces where liquor is not now manufactured, and thus will afford greatly improved protection against abuse.

ERNEST THOMAS,

Methodist Board of Social Service, Toronto.

"MOSQUITO FLEET" TO CLEAN BEACH OF DEAD CLAMS. Rockaway Point, L. I., March 20— The department of health has ordered the beaches in this vicinity cleaned of tons of dead clams cast up by recent storms and lying on the sand. It is feared that if the clams are not removed they will endanger the health of the community.
Capt. Edward F. Keegan, who for years has acted as foreman of a gang of Staten Island laborers whose work has been the cleaning out of mosquito swamps, started with his gang for the beaches. The laborers have been termed the "mosquito fleet" because of their efficient work in killing off the mosquitoes.

Building Record Broken.

Building contracts awarded in the United States north of the Ohio and east of the Missouri rivers for the first two months of 1920 outstripped any similar period on record by a vast margin, according to statistics of the F. W. Dodge Company. The total for the two months was \$452,511,000. It was only \$145,834,000 for the same period in 1919, and \$298,770,000 in 1918.

Industrial buildings contracted for during January and February were valued at \$162,352,800, and led all other classes in every district, except New York, where business structures found first now impossible to evoke again the resolute hostility to effective prohibition which we experienced over large areas ten years ago.

2nd. Serious leaks have been record.

Who makes your Gloves? Whether kid, cape, silk or wool, the name "Dent's" on the button is a guarantee of satisfaction. It's good taste and good sense to INSIST ON DENT'S.

FOR PROHIBITION

FOR PROHIBITION

The Present situation as regards proincial and federal prohibition calls for dun reflection on the precise facts. Durg the last few years most provincial trade. But many who advocated the adoption of the acts did so with the away and the privy council. The central object of that law was the abolition of the arroom in any of its open or villed prems. Provision of public facilities for rinking, especially for group consumption of intoxicants, was abolished. The ogan most heard during the campaign as "Abolish the bar."

That the enforcement of the various rovincial acts did not stop all drinking alcoholic beverages is no evidences of allure to do the thing which was attempted. Those acts were adopted with the aid of thousands of citizens who emperamentally are prejudiced against any legislation which "closes a man's mouth." The working of those acts has led to two results:

Ist, Citizens of conservative disposition are favorably disposed to consider more drastic restriction. Familiarity is
