Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result. The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bath internally if you want perfect health. Mr. E. C. Valet, Rapid City, Man., writes: "For several years I suffered from indigestion, Nervous Debility, Insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a God-send to me." The 'J. B. L. Cascade' is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Clinton Brown, Druggist, cor. Union and Waterloo Sts.; also F. W. Munroe, Dispensing Chemist, 287 Main St., St. John, who will be pleased to give you an interesting book called "The What, Why, The Way of Internal Bathing" on request. Ask for it.

DETAILS OF GERMAN PLOT IN IRELAND REVEALED

(Continued from page 1.) was ripe for execution and that the Germans only awaited definite information from Ireland as to the time, place and date. The British authorities were able to warn the Irish command regarding the probable landing of an agent of Germany from a submarine. The agent actually landed on April 12 and was arrested. The new rising depended largely upon the landing of munitions from submarines and there is evidence to show that it was planned to follow a successful German offensive in the west and was to take place at a time when Great Britain presumably would be stripped of troops. According to documents found on his person, De Valera had worked out in great detail the constitution of his rebel army. He hoped to be able to muster 5000 men. There is evidence that German munitions actually had been shipped on submarines from Cuxhaven in the beginning of May and that for some time German submarines have been busy off the west coast of Ireland on other errands than the destruction of Allied shipping. It will thus be seen that the negotiations between the executive of the Sinn Fein organization and Germany have been virtually continuous for three and a half years. At first a section of Irish Americans was the intermediary for most of the discussions in Ireland, and the entrance into the war communication with the enemy has tended to be more direct. A second raising in Ireland was planned for last year, and the scheme broke down only because Germany was unable to send troops.

This year plans for another raising in connection with the German offensive on the western front were maturing and a new shipment of arms from Germany was imminent.

An important feature of every plan was the establishment of submarine bases in Ireland to menace the shipping of all nations.

In the circumstances no other course was open to the government but to issue a proclamation against the common enemy, Germany, in a letter printed in the Manchester Guardian.

Appeal by Redmond's Daughter. London, May 25—Mrs. Max Green, formerly Miss Johanna Redmond, daughter of the late John E. Redmond, makes a strong appeal for unity between Ireland and Great Britain.

Edinburgh, May 24—Premier Lloyd George said yesterday regarding the action taken against the Sinn Feiners that no nation would desire the government to give away the sources of its information.

London, May 25—The Official Press Bureau, through Reuters' Limited, has issued a statement regarding the Irish arrests and the revolutionary movement in Ireland which culminated in arrests last night.

The story of the active connection of the leaders of the Sinn Fein movement in Ireland with Germany has been set forth in detail by documents in the possession of the British government, falls into two parts—the period prior to and that since the abortive Irish rebellion of Easter, 1916. The events of the first period are dealt upon in some detail, but those of the second period permit of no more than a summary as a full statement of the facts and documents in the possession of the government would disclose the names of persons who were brought to Great Britain and the channels of communication through which the German government maintained contact with it.

The story of the period before Easter, 1916, takes up in full the work of German agents, prominent among whom was Count Von Bernstorff, former German ambassador to the United States.

FINE BILL THIS AT THE OPERA HOUSE

Another Banner Collection of Vaudeville Acts, With the Mystery Ship

Well up to its usual high standard the holiday programme presented yesterday at the Opera House made for more pleased patrons. Not a few strangers, who were spending the holiday in the city, went to the Opera House for mental refreshment and came away highly pleased. Kraayna and Company opened the programme with a demonstration of lightning crayon work which was made more effective by the employment of electrical trimmings. One sketch particularly concurred in the spirit of the day, a drawing of "The Lord Nelson" in action and this, coupled up with suitable selections from the orchestra, made the act one of the most effective on the bill. Shapiro and Lemons, who follow, gave a very clever monologue act. Their songs were good and their "Human Xylophone" was well received. The woman on the bill exhibited some charming novelties ever offered in vaudeville in this city. They received a good hand all through and wound up their act in whirlwind style. A good robe act always goes well and that put on by Jenks and Allen was above the usual standard. Their dancing is good and "the lady" in the team particularly well. Their make-up was good and the act well balanced throughout.

CONDENSED NEWS

In a forest fire a few days ago back of Chicoutimi a food coach belonging to Price Bros. Company was destroyed with loss of \$25,000. Mrs. Joseph Charland of Quebec dropped dead from acute indigestion after supper, while chatting with her family. After being in the water for over two weeks, the body of a boy named Jean Coulombe was picked up yesterday at Cape St. Ignace, Quebec. While an agreement was reached last night between the city council of Winnipeg and its employees, the strike still remains in force pending a meeting of labor representatives and employers. Quebec, May 25—It is expected that before July 1, 18,000 men from Montreal and 7,000 from Quebec district will be in Valcartier Camp for training. Valcartier will receive the draftees for the first three months.
