## RECENT DEATHS

The death occurred at her home yesterday afternoon of Mrs. James Albert Somerville, of Milford Road, Fairville. Mrs. Somerville is survived by her husband, five young children, two sisters and seven brothers. The children are Viola, Muriel, Isabel, Alice and Willard. Her brothers are James A. Donaldson, bookkeeper for Randolph & Baker, Ltd.; George Willard, bookkeeper for Murray & Gregory, Ltd.; and William, of this city; David and Edgar, of Montreal; and Thomas and Joseph, of Bath, Me. Miss Isabel, a teacher at the Alexandra school, and Miss Annie, at home, are the sisters. The date of the funeral has not yet been decided.

William Prior Chute, a member of the lumber firm Cummings & Chute, died at his home in Woburn, Mass., recently. Mr. Chute, who was 58 years old, was born in Bridgetown, N. S., and went to Woburn when twenty-three years old. In 1888 he organized the firm of which he was a member until his death. He was a Mason, an Oddfellow and held membership in the Towanda Club. A widow and two sons, William P. Chute, Jr., of Somerville, and Louis A. Chute of Woburn, survive him.

Edwin Scott Stevens, for fifty-five years a resident of Minnesota, died at Grand Rapids on Feb. 8, at the age of 74. Mr. Stevens was born at Westfield, N. B., and went to Minnesota when the state was a territory. He followed lumbering on the upper Mississippi and its tributaries for twenty-five years. In 1890 he went to Grand Rapids. Besides Mrs. Stevens he is survived by two children, Mrs. E. J. Luther, of Grand Rapids, and Fred J. Stevens, of Watertown, S. D.

## CANADA AT THE PANAMA PACIFIC EXPOSITION NEXT YEAR IN SAN FRANCISCO

San Francisco, Feb. 10.—The final plans for the Canadian pavilion at the Panama-Pacific exposition in 1915 call for one of the handsomest among the buildings representative of foreign nations and states. Construction will be carried on under the supervision of Colonel William Hutchison, of Ottawa, Canadian exhibition commissioner.

Colonel Hutchison arrived in San Francisco on January 14. He was joined here by George Freeman, a London architect, who is designer of the building, and his staff.

The pavilion, which will cost approximately \$300,000 will be the largest exhibition building ever erected by the Canadian government. It will be 340 feet long, 240 feet wide and fifty feet high. The whole sum expended upon the building and its contents will amount to \$600,000 or more.

A portion of the products that will form the exhibits were shipped several weeks ago from Ghent, where they were exhibited at the recent exposition in that city, a portion coming by ship by the way of Cape Horn, and the remainder by the Isthmus of Panama. Further exhibits, however, will be added. It is probable that there will be additional exhibits by some of the provinces.

While the exhibit will cover all agricultural, manufacturing, and educational interests, great emphasis is being laid upon the importance of the Canadian live stock exhibit.

## SUITS ARE TAILORED

And Some Delay in Furnishing During the "Lonely" Sale

The Semi-Ready Store has been a very busy place for the past two weeks and in some cases there has been a delay in the tailor shop, where the staff has been working night and day to finish the suit.

"I take just as much care in finishing the garment to each customer's individual measures, just as much as when the real value has been paid for it," said Mr. Condon. "In this great rush, we naturally cannot alter and finish every suit sold within the hour, as we usually do and should do. It is only when extensive alterations are necessary or we are doing a land office business like in the preparing-for-Tuoke sale that our tailors fail to keep up."

A canary caused a crowd to collect recently in Lawrence when it perched on a street sign and gave an operatic concert. This was interrupted when the owner appeared with a gilded cage, in which the bird was finally secured.

## Are You Afraid of Glasses?

A great many persons suffering from eye-strain put off having their eyes examined for fear they will have to wear glasses.

If they really need glasses, they cannot avoid wearing them. And by neglecting to attend to their eyes they frequently make matters worse.

Perhaps if his eyes were attended to in time a person would only have to wear glasses when doing close work. But if he neglects his eyes too long, he will finally have to wear glasses all the time.

Are you neglecting your eyes? If you suspect any trouble, have examine them for you. We will tell you just what you need, or if you do not need glasses we will tell you so.

The twins were born several days ago at Mr. Baker's home in Tripp, MD.

## TURF

Important Rule Changes

New York, Feb. 10.—The biennial congress of the National Trotting Association began a two days session here today. The meeting is of importance to those interested in the sport for it is expected that radical changes in the racing rules will be adopted.

The rules committee today was formulating changes to be acted upon by the association tomorrow. These rules number nearly a score and include new racing rules and changes in old ones.

An effort will be made to have the congress adopt a rule advocated by the stewards of the Grand Circuit pertaining to time allowances. The suggestion will be to allow a horse the benefit of one second in case it has not started and reduced its record in the previous year while further changes call for the allowance of time up to four seconds in case a starter in a race fails to win part of the purse three times.

That best winners but non-winners of a race should not be penalized with anything but a "breeder's record" is sure to pass; also performance against time, or what are known commonly as "time cup" records, will not be considered as bars in races.

## OFFERS HERSELF FOR DISSECTION TO HELP HUSBAND AND GIRL

St. Louis, Feb. 10.—With a child ill and her husband out of employment, with bills for which the grocer and the coal dealer are demanding their money, and with a physician calling for his fees an installment furniture house threatening to remove the furniture for nonpayment, Mrs. Edward Hart could see no way out of her difficulties save by selling her body to the dissecting table.

Following is a letter received at the College of Physicians and Surgeons: "President Anatomical Laboratory: "I am badly in need of money for my husband, a railroad man, who lost his position because of being in a wreck and who is unable to find employment. If I do not get money soon I will be put out on the street and starve. I would like to know if I can sell my body to the medical college for \$800. Please let me know as soon as possible. Respectfully, "Mrs. Edward Hart"

Without taking her husband or any of her relatives or friends into her confidence she wrote the letter. The Hart home is in three small but scrupulously kept rooms. "I just cannot see our pretty little home going for the lack of what might seem to many as a small sum," said Mrs. Hart. "I would rather die and thus keep the home for my husband and our 3-year-old daughter, Dottie."

She admits she was ready to commit suicide. Aid has been extended to the family.

## HERE IS THE SECRET OF LONG LIFE

While looking forward to health and long life it is possible that you are unaware of the conditions necessary to attain healthful old age. Careful eating, and consequently preservation of the health and vitality of the digestive and excretory organs, is of the greatest importance.

Overeating is the usual cause of torpid, sluggish liver action, and when the liver fails additional work is thrown on the kidneys and they break down. Kidney disorders are the great source of suffering in old age. Rheumatism, bodily pains, aching arms and legs, backache and lumbago are the result.

By the use of Dr. Chase's Kidney-Liver Pills to regulate the liver, kidneys and bowels, at occasion requires, you not only overcome the suffering, inconvenience and unpleasantness of attacks of biliousness, indigestion and constipation, but you actually prolong life by keeping these organs in good, healthful condition. This medicine is a wonderful source of comfort for people in old age.
