NEW YORK, Jan. 11.—Stock prices displayed a strong tone at the opening of today's market, with buying stimulated by the unexpectedly large increase in unfilled tonnage of the U. S. Steel Corporation at the end of the year. In addition to Steel common the initial demand embraced American

Can. American Car and Foundry, Allied Chemical and General Electric, the last named jumping three points to a new high record. Pierce Arrow preferred, also rose two points to a new high.

MONTREAL MARKET
MONTREAL, Jan. 11.—Brazilian and Consolidated Smelters were the only issues to receive much attention at the opening of today's stock market, the former with a turnover of over 1,500 shares, advancing 1½ to 88½, and the latter dealt in to the extent of about 800 shares, opening up 1½ to 108½. Smelters, however, soon lost a point, then sold up to 108. The weak spot was Western Greys which sold off 1½ to 8. Canada Cement was up ½ at 102½, and St. Lawrence Flour down a similar fraction to 89½.

TO ADD 8 STORIES TO NEW YORK HOTEL

Improvement Will Give 1,000
More Rooms to Ansonia;
More Shops

NEW YORK, Jan. 11.—Eight stories are to be added to the 10-story Hotel Ansonia on Broadway between Seventy-third and Seventy-fourth streets, making it a 23-story building and increasing the capacity of the street floor of the hotel. The improvements are to be made by the A. L. Sub Corporation, of which Mr. Glaser is president. He acquired the hotel property in October for more than \$2,000,000, and, according to a statement, the lease recently reported made to Edward Arlington was not with John McK. Bowman, but with him, and affects only the upper floors of the building. Mr. Glaser said that he retains the store floor and plans to install additional shops on the side streets. The rental to be paid by Mr. Arlington will total \$300,000 a year for the next 12 years, Mr. Glaser said. The hotel man paid Mr. Glaser \$325,000 for the furniture.

No More Keys To Boston To Be Made

BOSTON, Jan. 11.—Celebrities, from "movie" actors to prize fighters, will have to make immediate reservations for a trip to Boston if they expect to get in on the division of the few remaining keys to the city.

There are just ten of them left over from the last regime, and Mayor Nichols promises to keep up the distribution until they're all gone. The Mayor, who took office on Monday, says that he doesn't intend to buy any more.

Hereafter distinguished visitors will have to bring their own.

Letters to the Editor

EAST SAINT JOHN TAXES

To the Editor of The Times-Star:—Sir—Will you please publish this letter? The ratepayers that attended the meeting at East Saint John on Thursday night last were informed that in order to pay \$1,200 for street lighting it would be necessary to assess for \$1,620, as it cost about 35% to assess and collect taxes in the parish of Simonds.

This may be a very reasonable amount, but many are unable to understand it.

I am sure if the officials who have the details, would explain why it cost this amount, it would be greatly appreciated.

Yours very truly,

RUPERT TAYLOR.

INVENTOR OF DEATH RAY GUN IS HELD

Dr. F. C. Gray Flourishes Revolver in Police Head's Office; Sanity Test

NEW YORK, Jan. 11.—Dr. Frederick C. Gray, of Bayonne, N. J., inventor of a "death ray" revolver, which he said would shoot fatal electric rays several hundred feet, was lodged in the county jail at Bayonne yesterday by order of Edward Griffin, acting recorder. He then was sent to Jersey City Hospital for ten days' observation. Dr. Gray, 50 years old, entered the outer office of Dr. Bert J. Daly, the new Director of Public Safety in Bayonne, at a time when Dr. Daly was considering office appointments. It was said Dr. Gray took three revolvers from his pockets, pointing one at some men waiting for Director Daly, shouting: "You'll have to let me in now! I want a job and I'm going to get one!" The men fled, but Director Daly opened the door and chatted with Dr. Gray until a patrolman arrived. The prisoner insisted he meant no harm, but intended the revolvers for use in experimental work. He is head of the Gray Electro-Chemical Laboratory Company of Bayonne.
