Another exclusive feature of Ross service, as much due to our extra equipment as special experience, is a decidedly sharper enlargement no matter what the size. And smoother mounting—the enlarged print is clamped onto the mount without a chance of wrinkling. Expect and get finer results here without paying more.

## GOLF BALL BLINDS WOMAN.

Miss Siskel of New York Is Injured on Bretton Woods Links.

Bretton Woods, N. H., Aug. 24.—Mrs. Eugene H. Siskel of New York is the victim of a peculiar accident at the Mt. Pleasant House, where she arrived Saturday.

In driving off the golf links her ball rebounded, hitting her in the eye, cutting a gash and paralyzing the optic nerves so that she is sightless.

BLINDNESS, EVICTION, BEGGARY FROM TWO DRINKS OF BOOTLEG RUM

New York, Aug. 24.—Three years ago, Michael Kulik, of 487 Avenue C, Bayonne, stopped on his way to a wedding and had two drinks in the saloon of Samuel Greenberg, Bayonne. He became ill at the wedding, awoke to find himself stone blind from wood alcohol.

He sued Greenberg and won a verdict of \$25,000 and Kulik's right to this was upheld. Blind though he was, he saw in that sum comfort for life for his wife and three children in Poland. But Greenberg was declared a bankrupt.

Kulik came before Recorder William J. Paine this week. He told his story simply—a little money, less money, no money, eviction, the charity of friends

and beggary.

His request that he be committed to the Hudson County Almshouse, Laurel Hill, N. J., was granted.

## The Name "Blue Water" Alone a Big Selling Feature—the Market Has Been Guaranteed—and the Players Are Arriving.

When Mr. Shipman captured the Motion Picture Market of the United States and elsewhere with vivid Canadian Pictures, in vivid Canadian Settings, he turned toward our fishing coast and was guaranteed a market if he could find a masterpiece written round these shores and adapted by actors of the magnitude of those who immortalized the scenes beloved of Ralph Connor and James Oliver Curwood. His adapters are here now and the all-star company comes September 11th to portray unto the world the beauties of our bay, our best city

homes and our incomparable river. All from the thrilling and charming work "Blue Water," by our native Frederick William Wallace—the fishing-skippers-author, whose novels of our Sea Harvesters are so widely read in every land.

The spending of 85 per cent of the expected expenses here locally, and the splendid advertising possibilities for the province from this artistically favored picture are back-grounded by the rapid money-making character of a Motion Picture Headquarters established here on a permanent basis, staffed and directed by men at the top.
