They've Gone it Blind

The bill committing the Dominion colonial Railway from its premier posi-

to its is useless, however to do this. The measure is a party one and while the without their assistance and in spite of the authority on dairy and agricultural implerailway enterprise in the history of this week. Company's make and six Edward Morgan was nade in Fredericton, these latter

products of the west to the Atlantic subject of the lumber interest and the big exhibit. Strength and vigor.

AT
HICKEY'S DRUG STORE

The development of the country so require. We contend that the first duty of the government was to extend the Intercolonial to Lake Superior, in order to avail itself for the present of the water system from the west terminating on the eastern shore of that great inland sea. After that, it would be time enough to parallel the people's road at the people's road at the people's cost and to practically make a free gift of the whole to a rival railway enterprise.

To require. We contend that the first duty of the government was to extend the first duty of the government was to extend the Intercolonial to Lake Superior, in order to avail itself for the present of the water system from the west terminating on the eastern shore of that great inland sea. After that, it would be time enough to parallel the people's road at the people's cost and to practically make a free gift of the whole to a rival railway enterprise.

To remove General Dunn. The ohief features as follows:

It is felt that an increase of stumpage should be removed to the memorial are as follows:

It is felt that an increase of stumpage should be removed to the interior of the handsome obtained the industry would be liable to be affected by change of freight conditions.

The committee recommends a uniform rate of stumpage as at present throngbout the features as follows:

Scallion, 3 years and upwards—R. A. Scallion, 3 years and upwards—R. A. Scallion, 3 years and upwards—R. A. Scallion, 3 years—and upwards—R. A. S

cally make a free gift of the whole to a rival railway enterprise.

When it is known that it needed only increased rolling-stock to enable both the C. P. R. and the L. C. R. to carry three or four times the volume of western traffic handled by them, it impresses one with the conviction that there is not the urgency pleaded by Sir Wilfrid Laurier for this new line from Quebec to Monoton.

When we are told by so eminent an authority as Sir Sanford Fleming that the excess of grades and curves on any railway to be built through the country proposed for the new line between Quebec and Monoton will guite offset the 70 miles less distance than by the T. C. R. for heavy freight haulage, we may well believe that parliament should have hesitated before committed that processes is grades and curves on any railway to the the country the country the country that the excess of grades and curves on any railway to be built through the country proposed for the new line between Quebec and Monoton will guite offset the formation to the comparative statement of soaler and rates of the proposed for the new line between the rolling that the excess of grades and curves on any railway to be built through the country proposed for the new line between Quebec and Monoton will guite offset the formation to the comparative statement of soaler and rates of the formation to the comparative statement of soaler and rates of the favorite tea he so well represents. Next to Mr. Brown's exhibit was that of the same.

The committee recommends a unisform are feet unispected to test the merits of unit who desired to certain the certain lands not suitable for deals, but only fit or of the puping had been dealered to enter the certain lands and the control that the recommend the province of the weak, be appointed permanent the work, he appointed permanent the work, and that sealers be not employed as much.

That a license system be adopted by the famous 'Slater' from his well known that the excess of grades and curves on any railway to be built through

ting the country to the construction of at least that part of the proposed road; but some unsecountable power appears to have urged the scheme upon the government and Liberal party, and prudential considerations seem to have been overwhelmed by party exigencies and party demands to have stifled individual convictions of men who in of June ting the country to the construction of at least that part of the proposed road; but some unsecountable power appears to have urged the scheme upon the government and Liberal party, and prudential considerations seem to have been overwhelmed by party exigencies and party demands to have stifled individual convictions of men who in of June were sent to parliament with no manwere sent to parliament with no manlegislature.
