THE OLD Y. M. C. A.

Has Been in Use Since 1872.

Something About the Men Who Have Been Connected With it.

The Y. M. C. A. building on Charlotte street is now on sale. The plans of the new building on Chipman Hill are still under consideration, but it is and was succeeded in August, 1902, by expected that a conclusion will soon be the present secretary, T. B. months. The following sketch of the work of time when the Y. M. C. A. were supthe Y. M. C. A., and especially that posed to be about to build on the part of it relating to the building now offered for sale, will be of interest at

the present time: It was in the year 1872 that the association, which was organized in 1867, felt strong enough to erect a building for its own use. Few such buildings were then in existence, even in larger cities, and not many of these were on any more ambitious scale. The enterprise was bold, even to venturesomeness. The courage, and subsequently the endurance, of the officers and members in those early days are worthy of the gratitude of the young men, who, in succeeding years, have spent many happy and profitable hours in the

A previous organization had been effected in 1854, which lasted until 1862. Few details are available concerning this earlier organization.

A feature of the work for many years was the large evangelistic meeting in the hall on Sunday evenings. Great good was done through these meetings, but as the associations related to the welfare of young men. It was decided here, as elsewhere, to that on the meetings and all the ef-

The benevolent work of the Association in the earlier years was very large, the amount dispensed reaching \$1,150 in some years. As relief and aid and other benevolent associations

work gradually lessened. The work among sailors was carried on energetically for many years, leading to the organization of the Seamen's Mission, which has since carried forward the work so efficiently.

Another field among the earlier efforts of the members was the large and successful mission and rescue work carried on in Sheffield street. After centreing for some years in private houses, steps were taken in 1874 to erect a Mission Hall, where the work continued with increased success under such workers as D. M. Sterns. This now prominent Christian leader, doubtgot much of his training here. which stood him in good stead in his larger work still being carried on in Pennsylvania.

The history of the association has been remarkable for the long terms of faithful service that have been given by esteemed citizns. As will be seen from the list appended there have been only ten presidents in the thirty-seven years of the association's history. These were: 1867-1868, George Bar-

teaux: 1869-1875. William Welsh: 1876-1879. John E. Irvine; 1880-1882. LeBaron Botsford: 1883-1887. John E. Irvine: 1888-1889, H. J. Thorne; 1890-1895, W. S. 1896-1898, G. A. Henderson; 1899. John E. Irvine: 1900-1902. C. E. Macmichael; 1903-1904, Frank White.

The first general secretary employed was James A. Gauld, who was in office rom 1878 to 1883. He was succeeded fter an interval of a year by H. H. Distin, who did good work until his retirement in 1889. He is now general secretary of the Quebec association. His successor was A. W. McLeod, who after four years of service, resigned to take a similar position in Vancouver. B. C. In 1894 Geo. Williams took office sch. Genevieve, coal laden in tow.

Surprise has been expressed that the old Chipman house should be handed over to new occupants at a Chipman lot. But it is not likely that the new Y. M. C. A. building will cover any part of the site of the Chipman house or barn. There is room for the building north of these old structures and nearer the crest of the hill. The old buildings must be taken down of course, for the Y. M. C. A. hall will probably face south toward Chipman street. Between the front and the street there will be a space of some eighty feet. These grounds, whether used for a tennis lawn or kept as gardens, will add greatly to the attractiveness of the place. It has been suggested that the front of the new building should be toward the public library across the street, but the southern front has the most riends. The proposed building has already been described in this paper. It will comprise a main portion four association were: George Barteaux, N. stories high, the two upper flats containing dormitories, with a wing on the side opposite the library. This part standing on lower ground will reach the level of the third floor of the main portion. It will contain the gymnasium in the basement, with the

Dorchester People Not Satisfied With Verdict.

The Imformation Received About the Man Murray Leaves Room For Doubt as to the Cause of His

Death.

(See page Six for additional news.) DORCHESTER, N. B., April 28.-

The coroner's inquest held a lengthy enquiry into the death of the unknown stranger, whose body was found by the road side yesterday. The results are unsatisfactory in that nothing definite was brought out. The identity of the man is yet as much a mystery as ever. The cause of the bruises found on

the body and the lacerated condition of the face are yet unaccounted for, beyond the general statement of the physicians that the bruises would not cause death. The foul play theory is still believed. An officer informed your representative that he was following up an important clue, that may yet lead to definite results. The coroner's jury no doubt acted up to their sense of duty, and brought in the only possible verdict in view of the evidence produced.

Sheriff McQueen, high sheriff of Westmorland, was first called and deposed as to finding the body as it lay in the ditch, and described the conditions surrounding it, and general ap-

Gideon Palmer, M. D., was sworn and testified that he was present at the place where the body was found, and made slight observations as to conditions there. Last night he made a post mortem examination at the undertaker's rooms, but described the wounds beneath the left eye and in the left ear as being post mortem and in no way indicating violence. According to the doctor's testimony these wounds were probably caused by birds. A contusion was noticed under the right eye which was evidently ante mortem, but not such as to cause death. There were no
