All which will be sold cheap for Cash.
St. John, June 14, 1844.

TRIAL OF FEELING—There is to be a trial of speed between two new revenue cutters in New York river in a few days. This trial is not two new cutters but two old ones, one of the new cutters have been built of iron, and the other of the same power; one is named the *Enterprise*, and the other the *Spencer*. This will, therefore, be a trial of much importance to steam navigation.

LATEST FROM HAWAII
Correspondence of the United States Gazette.
Cape Hatties, 28th May, 1844.
This place has been quiet for the last week or two. The Council of states, learning from Port as Prince that Kiver, or Hered, as he is called in the Hawaiian language, had been appointed Governor of the North side, he was accordingly proclaimed here on the 15th. The government is not to be considered as heretofore; but it is in contemplation to erect the several divisions of the island into States, somewhat in imitation of our government, and the Hawaiian have gone to Port as Prince for that purpose. Their plans, however, do not appear to be very clearly defined at present. It is said that the proposition will be made to the Dominicans to join the new government as a State, which, if rejected, another expedition will be sent against them, but it is the general opinion that they will be able to maintain their position as a distinct government. There is some talk of their having made a treaty with France, but this seems uncertain. H. B. M. frigate *Spartan*, 25 guns, Capt. Elliot, arrived here on the 23rd inst. from Port as Prince, whence she sailed the 22nd. The officers report every thing quiet there. The *Providence* has been ordered to leave the island, and his kinship, Hered, has been appointed President of the Hawaiian Assembly, has also been banished, and they are to retire to Jamaica. A few days ago, the south-gate, some soldiers were left in the woods, their feet being so much disabled by "jiggers" as to prevent their marching. A peculiar species of large insects, which are attracted by the quantity of sugar cane consumed by the army, for want of other food, and it was found necessary to bandage their feet, in order to prevent these vermin from irritating them out.

CONCERT.
