## CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.)  
Montreal, Oct. 23.—New York had another bad break this morning but strengthened slightly at noon. The closing prices were still considerably below last night's closing. The local market followed the lead of New York. Trading, however, was light in all but one stock. Little attention was paid to anything but Dominion Steel Corporation. The selling was mainly in small lots, 25 shares being the most frequent to appear on the ticker. The stock opened at 39 1/4 and about the end of the first hour a broken lot was sold at 37 1/4. A reassuring statement which was made by Sir Wm. Van Horne had a cheering effect and the stock recovered to 39 1/4. Sir William expressed the view that the movement of the stock indicated nothing worse than an attempt to stampede smaller shareholders so that the manipulators might get some cheap stock.

Montreal Power, which closed at 209 1/4 yesterday, opened today at 208 1/4 and advanced slightly, closing at around 209 1/4. The rights were unchanged at 10 to 10 1/8. There would be little Power offering at present prices if money conditions were more favorable.

Quebec Railway was steady at 12. There has been very little trading in this stock for some weeks but the price has been firm. There is not likely, however, to be a movement until something more definite is known as to the probability of MacKenzie and Mann interests taking over the Quebec and Saguenay Railway. It is improbable that anything further will be done in this connection until the first of the year.

R. & O. opened at 109 1/4 and in the late morning it declined to 108 1/4, later however, it recovered to 109 1/4. Mr. Edmond Bristol, a director of the company, has arrived from England and intimates that no date has been fixed for an issue of securities in connection with Canada S. S. lines.

Brazilian was lower today, opening at 86 as compared with 86 1/4 at the close yesterday and selling down to 85 1/4. Later, however, it recovered to 86 1/4. This stock is very sensitive to general conditions.

C. P. R. was weaker today, opening at 227 as compared with 228 1/4 at the close yesterday.

## Laidlaw & Co's CLOSING STOCK LETTER

(J. C. MACKINTOSH & CO.)

New York, Oct. 23.—With the more active market against short covering apparently completed today's stock market developed no fresh buying power to compensate for the lessened demand from bear interests and as a consequence professional pressure against the leading stocks was renewed this morning with more or less successful results. The less favorable aspect of the Mexican situation was made the base of the bear position and while this was not seriously regarded it was argued that while this matter overhung the market large interests would not take an aggressive position for the rise. The decline in New Haven stock based upon official announcement that the dividend would be cut to 4 per cent, was another adverse influence although this action was fore-shadowed for a long time past. There was also a revival of the talk of a depression in the steel industry, based upon the rather pessimistic utterances of interests connected with that industry.

As a whole, however, the market showed good resistance, reflecting a liquidated position even if the short interest had been somewhat reduced. There is nothing in the immediate prospect to stimulate bull initiative from important quarters, but the present range of prices has discounted a great deal that is unfavorable in trade and politics and the passage of a sound currency measure might impart a very different and favorable aspect to the financial situation.
