John Taylor & Co's wharf, Halifax, had his ight leg broken by the fall of a stone. On Monday night last, a man nam John Bowser, a laborer, who has bee for twelve months past employed at the Acadian Mines, left his boarding house, and next morning a fellow boarder was minus watch and chain and \$38. His

board bill is also unpaid and others of the good folk of the neighborhood would be glad of his return. A singular circumstance happened or the recent voyage of the bark Silver Cloud, from Great Britain to Sydney. While taking soundings one day the lead struck on a silver coin, which stuck to it and was brought up. The coin thus fish-ed up is 180 years old, and is now in the possesion of Mr. Emery of Sydney.

A despatch to the Halifax Chronicle nichael & Co's shipyard, New Glasgow, caught fire Thursday, and in about fif-teen minutes the shed covering, the boil-er and steam chest, was consumed. The calmness of the day and the prompt ac-tion of the firemen, prevented the fire spreading over the shipyard.

The manager of a commercial Agency and a merchant doing business in Halifax, met Thursday in a shop on Barrington street and discussed the Toronto
Monetary Times article on Halifax affairs
so warmly that they came to blows and
pummelled each other freely. The Commercial Agency Manager is reported to
have got the best of it.

The enterprise of the Austrian hotel builders was indeed unprecedented. Not content with covering every available content with covering every available spot of land with shantles, they actually built cabins on rafts similar to the sampan village of China. But the blue Danube flowed on and the flood of visitors did not flow in. Those who did come preferred dry land to those aquatic abodes, and now the speculators are trying to liquidate the concern. They have sunk their toating capital, and now they find that after many days they cannot get it hack.

If ever woman had a right to be mad, that woman is Mrs. Knight of Milwaukee. that woman is Mrs. Knight of Milwaukee. It was sixteen years ago that Knight departed and morning dawned upon her, without the consolation of the \$10,000 insurance policy that the defunct had left in the dark. The other day the secret drawer in which it had been deposited came to light, and there she had been starving sixteen years just because Knight hadn't had the sense to open his mourh before he died. She would have been justified in saying "darn!" if she'd been a corpse—under those circumstances.
