Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway, hereby give Public Notice that they are prepared to receive tenders for Track-laying and Ballasting on about 72 miles of the line, from the Metapedia Road to the Bridge across Metapedia River, Section 18. Tenders to be for the whole distance.

Specifications and forms of tender can be obtained at the office of the Commissioners at Ottawa.

Sealed tenders marked "Tenders" and addressed to the Commissioners, will be received at this office in Ottawa, up to 12 o'clock, noon, TUESDAY, the 24th March next.

Tenders will also be received, at the same time and place, for 300 tons of Railroad Spikes, according to sample to be seen at the above office. Tenders to state price per ton of 2240 lbs., delivered at Riviere du Loup, in equal quantities, in the months of May, June, and July, next.

A BACHELOR'S CONSOLATION,

A Romance of the Needle.

BY ROCKAFELLOW.

I.

In a snug little cot, not a thousand miles off,
Lived a lonely, contented old "bach,"
Who cooked his own grub and dined by himself,
And had no one to sew on a patch.

II.

With his cat, and his dog, and his little pet mouse,
Our hero, 'twas said, wanted nothing;
But needles were sharp, and would frequently stick,
So he oft went with holes in his clothing.

III

There no doubt were misses and maids quite near
Who would fly to relieve his distresses,
But he oft had declared he could never abide
The appearance of hoopskirts and dresses.

IV.

Now, this lucky old bachelor heard by a friend,
Or read in his morning journal,
Of the wonderful stitching of sewing machines,
And considered the matter nocturnal.

V.

Having fully determined to get a machine,
He spent a whole day in inspection,
For an hour or so would never suffice
To select from so large a collection.

VI.

For some thought the "Wheeler & Wilson" the best,
And others the "Wilcox & Gibbs,"
While others affirmed that the agents of both
Were too much inclined to tell fibs.

VII.

And a few for the "Florence" were ready to fight,
While most liked the "New Family Singer";
Another one swore the "Osborne" was best,
The last one, I think, was a *shaker*.

VIII.

So first to the "Wheeler & Wilson" he went,
Where he found them making a shirt,
At the end of each seam they used needle and thread,
And by experience he knew they would hurt.

IX.

Then down to the agent of "Florence" he went,
And told him the part that was slack,
So the "Florence" a certain advantage had gained
By the feed that could make it sew back.

X.

But our Bachelor friend was dissatisfied still,
For the "Florence" so complicate seemed,
He feared the minutiæ might "get out of fix,"
And could never be wholly redeemed.

XI.

Then they told him another advantage they had
Over other machines in the West,
That *four different* stitches with it they could make,
And from *four* he might sure get the *best*.

XII.

Our hero replied, "What's the use of the *four*
If *one* of the stitches is *best*,
Why *that* is the right one to use *all the time*,
And what will you do with the rest?"

XII.

The "Howe" and the "Wilson" both vainly he tried,
The "Domestic" and "Osborne" as well,
But the "Howe" was too heavy, the "Wilson" too light,
And the "Osborne" broke down on a fell.

XIV.

The "Finkle & Lyon" or "Victor" he tried,
The "Lina," "Bless," "Leavitt" and "Weed,"
Till worried and vexed with his fruitless research,
He scarce hoped in the end to succeed.

XV.

After trying in vain many other Machines,
Without any hope of success,
He called where the "Singer New Family" was kept,
And they quickly relieved his distress.

XVI.

For here half a dozen machines were engaged
In stitching of different sorts,
Which they did so complete, and with so little noise
He acknowledged the truth of reports.

XVII.

In lightness of running, in stillness and speed,
In construction so simple, yet strong,
Sure none but the "New Family Singer" would vie,
Though he'd searched through the infinite throng.

XVIII.

Then the stitch was so neat, so elastic, so strong
That he vainly endeavored to break it,
And so many advantages in it combined
That he quickly decided to take it.

J. D. LAWLOR,
feb 25 Manufacturer of the New Singer Family, 40 King street.

From Saturday's Second Edition.

HOUSE OF ASSEMBLY.

FREDERICTON, March 18.

Mr. Gough moved a resolution for papers relating to sums paid on bye road accounts in Victoria and Madawaska. He said he desired to know to whom these moneys were directly paid in the first instance.

$800 were granted for the Deaf and Dumb Asylum, Halifax; and $650 for the Deaf and Dumb School, St. John.

In reply to Mr. Wedderburn the Secretary said the grant to the Halifax School was sought by the Secretary of that institution to be increased, as eleven New Brunswick pupils are in it at the present time, but it is not increased and is given this year with the understanding that it will, in view of the establishment of the St. John School, probably be withdrawn ere long.

Mr. Beckwith explained that the grant is simply one from year to year, depending on the number of non-paying New Brunswickers at the Halifax school.

Mr. Maher enquired as to what the terms are on which the grant to the latter institution is given. He thought there were no more deserving institutions, and hoped next year both grants and more would go to the St. John school.

Mr. Hanington wanted to know if the institution was to be a boarding school. He thought it would be better to have one good school at Halifax, partly aided by New Brunswick, than inferior schools in each place.

The Secretary said the St. John school would be a boarding school.

Mr. Hanington thought it might be well to establish a day school at St. John, but also to assist the Halifax school. He referred to the efficiency of the latter, as witnessed by himself, and feared the withdrawal of the grant would not be good policy.

Mr. Wedderburn said one of the principal reasons for the establishment of the St. John school was in order to secure home instruction. Out of 375 mutes in this Province only eleven are at the Halifax school. It was very desirable to have both schools, but, as between the two, he would favor the St. John school.

Mr. Landry thought the Government should consider the propriety of withdrawing the grant from the Halifax and giving greater facilities to the St. John School, which should be made as efficient as possible.

The Secretary said four of the New Brunswick pupils at the Halifax institution belong to Westmoreland. There are sixty-five mutes in St. John County, twenty-six of whom attend the St. John school. No doubt the present discussion will be a hint to the Halifax school that the grant will ere long be withdrawn.

Mr. Landry said the only reason why he would withdraw the grant from Halifax would be to render the St. John school more efficient.

Mr. Hanington said his contention was that the St. John school, as other public schools, should be a day school for the St. John mutes, but it would take all the aid both Provinces could give to keep up one thoroughly efficient institution.

In reply to Mr. Gillespie Mr. Girouard said $700 had been expended on a road to Girouard settlement, and the receipts are duly fyled.

Mr. Gillespie thought the receipts should not be kept in any member's pocket.

Mr. Girouard said the receipts were in the office. He got the money in St. John, but he did not remember from whom.

Mr. Phillips explained that he had never expended any money himself.

Mr. Gillespie asked the Secretary where the $700 given to Mr. Girouard appeared in the public accounts. It is no wonder the Government has had so many supporters when monies had been given to members to spend where they like.

In reply to Mr. Gough the Secretary said part of the mining appropriation of last year went to pay back claims, and only about $1000 were spent on the borer account. The present grant of $2,000 is for the diamond borer alone.

Mr. Hibbard, referring to the mining policy of the Government, thought $2,000 too small a grant for this year. The Government was justified in purchasing a diamond drill, and it should pay half the whole mining expenses of the Province. Lumbermen can count every tree on an acre, while minerals are an uncertainty. As the Government takes part of the profit of working mines, they should be partners in paying the expenses. The Lake George Antimony Co. paid twelve or fifteen thousand dollars before they could reduce their ore, and now any man can come and look at their works and do the same for twelve hundred. That Company is now making their ore an article of commerce, and, as a matter of justice, royalty should be withdrawn. Members may say what they like in reference to his following the Government because of the mining grants, but he was prepared to answer any questions on that head. The Lake George Company has spent $52,000, and is to spend $12,000 more this season, and yet operations of this class are alone of all our industries taxed by the Government. He thought the Lake George Company should have a grant this year, the same as last. The borer will enable the Province to develope mining much better and cheaper than through any other means.

The deaf and dumb grant and the mining grant were passed.

Hon. Mr. Stevenson, referring to Mr. Gillespie's question, said the survey referred to was made in 1871, but an account of it had come in late. The land was in the vicinity of the Little Southwest, and intended for settlement. It had been surveyed by Mr. Jack.

Mr. Gough thought the deputy surveyors of Northumberland should have been engaged to do the work.

The Surveyer-General said the order for the survey was not given by the present Government.

The Secretary moved the unforeseen expenses item, $4,000.

Mr. Gough said $2,867 were expended last year in delegations. He proceeded to show who were on the delegations and the amounts paid to each. Mr. Willis got $70 for locating immigrants at Edmunston, and he found it more profitable to be in the Government without office than in the Opposition. Mr. Young, too, had to be appeased, as he might want to turn the Chief Commissioner out of office.

The Secretary said there would be one delegation to Ottawa, as foreshadowed in the speech.

The unforeseen expenses item was voted, and progress was reported.

Mr. Landry presented the petition of Lorang Burk and others in favor of an additional polling place in Dorchester.

Mr. Wedderburn introduced a bill to abolish the Legislative Council.

In reply to Mr. Gillespie the Surveyor General said that 20,000 acres of land in Northumberland had been surveyed for the department, and he did not know that any of it had yet been granted to any one. The land is not for the Riviere du Loup Railway Company.

Concert Postponed.

The Germain street Baptist Sunday School Concert, which was to have been held in the Y. M. C. A. hall this evening, is postponed till Friday evening the 20th.

A Fine Trout.

Mr. McAndrews has on exhibition at his shop, corner of Princess and Germain streets, a beautiful trout, caught yesterday in Peters's Lake. The fish weighs a little over four pounds. Its shape is as near to an angler's idea of perfection as possible.

Portland Police Court.

There was no business before the Court this morning. Several cases of assault and battery are on the slate, and will come off in due time. The Civil Court was in session, with twenty-nine cases on the docket. Nearly all were settled without coming to trial. Those that came to trial were undefended, with one exception.

Mr. J. W. McGowan is announced as a candidate for Prince Ward, in opposition to Coun. Martin.

Mr. F. J. Doherty is a candidate for the Portland Town Council from No. 3 Ward. No one who heard Mr. Doherty's great speech at the Burpee-called-to-give-an-account meeting could help voting for him.

A Case from Milkish.

John Linton and John Haney are neighboring farmers in Milkish. They have always lived in peace and quietness until lately, but affairs have changed. It used to be customary for one John to lend the other John his horse and carriage to go to church or come to the city, while the latter John would return the compliment by giving the former John a half a day's mowing, or letting his boy dig potatoes or pick stones. But John and John are out, and each John has an account against the other John. One sues the other. This is the state of affairs when John Linton comes to Portland, and John Haney comes the same day. Linton has Haney arrested for a claim of $20, and the trial comes off in the Portland Civil Court. W. Pugsley, Esq., appears for John, the plaintiff, and C. Doherty, Esq., for John the defendant. Mr. Doherty claims that, as the parties live in King's County, and as all their transactions were in that County, there the action should be brought. Mr. Pugsley argues that the process was served in Portland, and there the action must be held, claiming a full jurisdiction for the court. Justice Tapley decides in favor of Mr. Pugsley, and the case goes on. The plaintiff is called, states his case, and proves the items of the bill. By the cross-examination Mr. Doherty tries to make out that all the services charged were paid for by the defendant in this way: If Linton did a half day's mowing for Haney the latter returned the compliment by bringing five bags of grain from the city to him, and if he lent his horse to the defendant, the defendant paid the bill by driving the plaintiff and wife from the city to Milkish. The case was not finished at noon.

VINEGAR BITTERS

PURELY VEGETABLE — FREE FROM ALCOHOL

P. — D. WALKER'S CALIFORNIA — R.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

NORTON, King's County, Dec. 14, '63.

MRS. LESTER—Dear Madam, I have been troubled for the last fifteen years with Biliousness, and have tried many of the different kinds of medicines recommended for the cure of the above complaint, but received no material benefit until I commenced using your DINNER PILLS, (now about eight months since.) I continued their use according to directions for about three months, and must say that I have enjoyed better health since taking the Pills than I have for the last fifteen years, and would recommend them, with all confidence, to any person similarly troubled.

I am, Madam,
Yours, very thankfully,
HENRY HANEY.
