**For Scalds and Burns.**—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. An Unblemished Record. Sensational advertising methods have so often been used to exploit worthless articles that we have always preferred to be very conservative in our claims for Dr. J. D. Kellogg's Asthma Remedy. We kept it before the public by modest announcements, relying almost wholly for its more extensive use upon its recommendation by those whom it relieves of Asthma's dreadful agonies. Now numbered in many thousands, we suggest a trial of Dr. J. D. Kellogg's by every sufferer from Asthma.

### CAMPBELLTON

Campbellton, Sept. 24.—On Monday afternoon the frame dwelling house owned by Oscar Welsh was totally destroyed by fire. A defective chimney is thought to have been the cause.

### Death of Betty Marie Little

The sad news reached Mrs. Percy R. Little at the home of Mr. and Mrs. E. F. Reycraft Friday morning, Sept. 16th, when her husband brought her the word that her only daughter, Betty Marie, aged three years and two months, had passed away after contracting the dread disease cholera in the morning.

Owing to the absence of her mother she lived at Lucan Crossing with an aunt, Mrs. Edgar Dauncey, for one and a half years. Three months previous to her death she was taken to Battle Creek, Mich.

The funeral took place Sunday afternoon. Service was held in the First Methodist church, Battle Creek, and interment was made in Oak Hill cemetery. The beautiful floral offerings showed the love which she had won and the sympathy which was extended to the parents, they having held at the Battle Creek for five years.

Besides her parents she leaves one brother, Ross.

Those who attended the funeral from a distance were: Mrs. P. R. Little, Newbury; P. R. Little, Linden, Mich.; Mr. and Mrs. E. F. Reycraft, Newbury; Mr. and Mrs. D. L. Mitchell, Detroit; James Little and Mrs. Albert Haskett, Denfield.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly remove the cause of the trouble.

Thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

THE MUNICIPAL ORIGIN OF THE "HYDRO"

By J. E. Middleton

Those who intimate that the Hydro-Electric System ought to be a Government monopoly distributing energy to all parts of the Province at a flat rate overlook at least two important considerations.

First: The organization of the system in its present form is a masterpiece of enterprise and courage of twelve cities and towns of Western Ontario, who pledged the credit to construct the first transformer stations and transmission lines, and to build the distributing plants within their own borders. No financial aid, other than practice, all the trouble and expense have come upon the municipalities alone. Fortunately the forecasts of the engineers were conservatively made, and the administration of the Hydro-Pioneers have a vested interest in the Niagara System of over \$20,000,000. They have saved millions of dollars by reason of the successive years of surplus funds, in the aggregate, exceed \$7,000,000. Besides, since these twelve use almost one-half of the total power generated by the Niagara System, they have a vested right in the continuance of the System as at present organized. Particularly so, since they are in plain sight of the time when all obligations will be wiped out and the municipalities will own the local and co-operative plant without incumbrance.

The King can do no wrong. If, therefore, a Provincial Government undertook to repeal all existing legislation relating to the Hydro-Electric System and re-organize the enterprise according to new and untried principles, what would be the damage justly due to the Twelve pioneers and to all the other municipalities which made contracts trusting in the good faith of the Province?

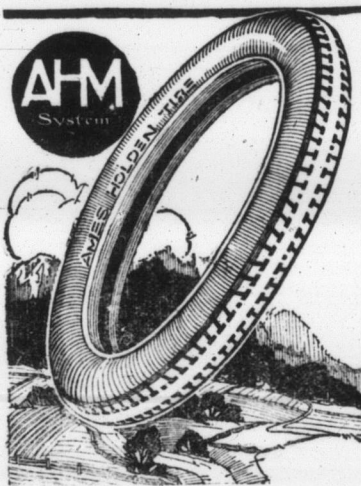

Secondly: If the Province were under obligation to supply electric energy at a fixed rate to one community, it would owe the same treatment to all. In the case of a hamlet remote from the source of supply, the carted outlay for lines and stations would be so great that the rate of power in the hamlet at the flat rate would never meet the fixed charges on the investment. Thus, the rate in large cities and towns would have to be sufficiently high to cover the losses elsewhere, and the industrial section of the Province would be no better off than under private ownership.

It is probable that the Montreal Power Merger would undersell the "Hydro" at every important manufacturing community in Ontario. The result would be a Provincial disaster of colossal proportions.

The "Hydro" is a success because it is a municipal enterprise, because it supplies energy AT COST to all such local system stands "on its own legs," because the administration has been wholly separated from the turmoil of Party Politics, and because querulous critics have not diverted the attention of the Commission from the business in hand.

### CAIRO

Mrs. Susan Leitch, under medical treatment for some time, departed this life on the 14th inst. and was interred in the Alvinston cemetery on Saturday, the 17th, service being held at her former home and conducted by Rev. J. M. Bell, pastor. Although Mrs. Leitch was quite ill, her death was not looked for so soon.

However, the summons came and she quietly fell asleep. She was the only daughter of the late W. F. Armstrong and was married to Neil Leitch many years ago. She was a consistent member of the Presbyterian church here and will be greatly missed in the community. She leaves to mourn her loss a sorrowing husband and other relatives. A very large concourse of friends and neighbors attended the funeral service, manifesting the esteem in which she was held.
