May 1920 Bring Peace, Health and Prosperity to You All!

WILL BE SIGNED JANUARY 6TH

Paris, Dec. 31.—Exchange of ratifications of the Treaty of Versailles will take place January 6th at the Quai d'Orsay. Baron von Lersner, head of the German delegation, and Paul Dasta, Secretary of the Peace Conference, to-night settled all points in connection with the signature, except that relating to naval material, which will be solved shortly.

The Germans will sign the protocol, and at the same time the allies will hand a letter to them agreeing to reduce their demands to 400,000 tons, if the total available tonnage has been overestimated, or Germany is gravely menaced economically. In any case, after the signature, the allies will get 242,000 tons of material, and the balance based on the reports of the experts who are now checking up at Dantzig, Hamburg and Bremen.

The British Prime Minister, David Lloyd George, will be present at the ceremony. Diplomatic relations with Germany will be resumed the following day, when the French Charge d'Affaires will go to Berlin and French Consuls will resume their posts.

Allied troops will proceed on January 12 to the territories which must be evacuated by the Germans, or where plebiscites are to be held. It is estimated that 100 trains will be needed for this purpose.

ANOTHER DELAY MAY BE POSSIBLE

Paris, Dec. 31.—Although the supreme council today fixed January 6 as date for signing the Protocol and exchanging ratifications for the German peace treaty, complications are developing which it is believed by some persons in Council circles may again cause a postponement of the ceremony, of putting the treaty into effect. It has developed that the German technical delegates arranging the details connected with the plebiscites to be held, do not appear to have full power to act. The signing of the protocol on January 6th, therefore may depend upon whether the Germans can secure powers immediately in order to complete the arrangements which ought to precede the exchange of ratifications.

BRITISH BYELECTION

London.—Lieut.-Col. Cuthbert James, Coalition Unionist, has been elected to the Commons in Brighthelm, Kent, by 1071 majority.

AIR SEEMS TO BE CLARIFIED BY CHIEF HYDRO ENGINEER

Ample Power Coming to City in the Next Few Months, When Demands Will Increase.

CHIEF ENGINEER GABY MET COMMISSION

From what can be gathered the visit here and address by Chief Engineer Gaby of the Hydro Electric Power Commission has clarified the air considerably in the matter of the Elms to Hamilton radial railway by-law to be voted on by the respective seven municipal corporations to-morrow. While no definite statement has been made by the Light Commission presiding when the questions of power and the city streets and street railway were discussed it is announced that the conference was very helpful and that information was given by Mr. Gaby which was not known before to the commission.

More Power is Assured. This point has been settled: the city's power shortage. Assurances were received from the Chief Engineer that this matter would be attended to. When Superintendent V. S. McIntyre of the Light and Street Railway Departments was seen by the Record this morning he was optimistic as to the future power situation in this city.

Evidently the objection to the hydro railway on this point has been removed. As to the other matter, the city's streets and the city street railway and the intentions and powers of the Hydro Power Commission the Chief Engineer, it is understood, firmly repeated his assurances and statements of the previous evening, which denied any street rights to the Hydro Commission and retorted any intention of their wishing to take the street railway from the city or using any streets without the city's consent.

Mr. Gaby again submitted a proposal to have the city street railway extend its line to connect with the Hydro radial to the benefit of both. The

THOUSANDS WITHOUT WORK

WINNIPEG, Dec. 31.—With less than three hundred positions available, there are about 1,300, of whom 720 are returned soldiers, seeking employment in Winnipeg. There is plenty of work for laborers and men with trades, but there is a decided shortage of clerical and office jobs.

RECORD TAX FIGURE

WINNIPEG, Dec. 31.—The city tax collector announces that the property owners of Winnipeg have paid since November 1, a sum of \$4,200,000 in taxes, a record figure in the city's history.

President Wilson issued 18 pardons to convicts this Christmas.

MORE FRENCH BABIES.

Paris, Dec. 31.—A large increase in the birth rate is shown by statistics for the month of December, the rate in Paris having doubled since the beginning of the year.

Last January the birth rate was 9.5 per thousand, while for the present month the rate exceeds 18 per thousand.

To Our Friends

An Appreciation

It is the season of New Year Greetings in all the homes where subscribers to this paper dwell.

A Happy New Year, with all that term implies, to one and all of you!

As you have put into anything, that much will you get out of it. Out of the interest you have taken in this paper during the old year we hope you have derived an equal personal pleasure. Your appreciation has made this paper's issuance a congenial work to us of the staff.

And likewise in that same spirit, we take this opportunity of expressing our thanks to the business men of this community, and of the territory wherein this paper circulates, for their cordial co-operation in practical ways which has made it possible for us regularly to present our best efforts to the community in a creditable manner.

May the kindly glow of this holiday season color life for you and yours throughout the coming years.

THEY'RE OFF, NOT THE BIRDS, BUT THE PROUD OWNERS

Kitchener Poultry Association's Annual Event Opened Under Favorable Conditions. Many Fine Birds.

The Poultry Show at the market got away to a good start last evening and the receipts taken in were away ahead of the mark set last year. The exhibition as is known is a top-notch and the public was highly pleased with the show itself. The egg tests attracted many people who went away with a good deal more knowledge on this line than they possessed before. The prospects are that this will be the best year the Kitchener Poultry Association will have ever had.

Owing to the judging results not being in shape as yet they could not be published to-day but will appear on Friday when a fuller account of Kitchener's big growing show will be given.

The judges are W. Carter, of Landisboro, for fowl; E. Durand, of Toronto, for rabbits and L. Ridler, of Guelph, for pigeons.

One of the features of the Kitchener Poultry Show was the illustration and explanation of the work of the Dominion Department of Agriculture, Live Stock and Poultry Division of Ottawa, in regard to eggs. Mr. J.R. Fee and his assistants Mr. Newman explained how eggs should be judged.

This Department has organized what are known as egg circles, in Prince Edward Island since 1912. These circles each comprise a number of farmers grouped together. They send their eggs to the market, to be sold, just as soon as possible. The eggs are divided into four classes, governed by weight and condition. A first class dozen of eggs should weigh 25 ounces, be of sound white and have but a faint yolk. The second class of eggs should weigh 24 ounces to the dozen and have a slightly more pronounced yolk. The third class of eggs should weigh 23 ounces and show a faint trace of wateriness in the white and a chapped, shagreened yolk. The fourth class must be very watery and weigh less than 23 ounces to the dozen.

Mr. Fee claims that eggs should be sold by quality, the eggs as present are all sold at the same price. In Prince Edward Island the eggs are sold by quality since 1912 and the result is that poultry raising is now the leading industry of Prince Edward Island.

Eggs sent to Great Britain from Prince Edward Island are just as good as the eggs sent to Great Britain from Ireland, the care taken by the societies in Prince Edward Island being about the same. Mr. Fee states that he hopes to see the exhibition of the actions of the Prince Edward Island egg fanners.

Illustrations of the way that eggs should be judged by the prospective buyers were given by Mr. Fee and his assistant.

The apparatus which is used in this analysis of eggs is being demonstrated in the market building at present. The egg is held against an electric light in a darkened room and the formation of the egg shown on a screen. The light shining through the egg being above whether the egg has a firm appearance whether it is watery whether the yolk is advanced and in fact shows just in what class the egg may be placed. The quilt will be drawn for at the show at 9:30 o'clock Thursday evening.

1,500,000 GERMANS KILLED

BERLIN, Dec. 31.—Official statistics, made public to-day, place the number of Germans killed in battle at 1,500,000. These figures do not include those who died in prison camps.

67 CASES IN WINNIPEG

WINNIPEG, Dec. 31.—Another case of "sleeping sickness" is reported, bringing the total to 67 since the first appearance of the disease here, November 11. Twenty-two deaths have resulted from the malady.

ONLY NINE LEFT!

Ottawa, Dec. 31.—To-night at midnight several hundred orders in Council passed the War Measures Act become ineffective. Only nine orders remain in effect until the end of the forthcoming session of Parliament. They refer to Government control of pulp and paper, sugar, coal and wood; orders governing silver coinage and gold export; trading with the enemy and internment of aliens, and the order relating to the War Purchasing Commission.

Censorship being abolished with the New Year, the censor's office will be closed as soon as the business in connection with that undertaking can be carried out.

CROSSED ON MOVING ICE

QUEBEC, Dec. 31.—The Canadian Recruit, which went aground on December 17, is not a total loss. The ship has a large hole in her side. When the ship was abandoned on December 23, the crew, numbering 28 men, started on foot over the moving ice to the shore, a mile and a quarter away. It took the party five hours to make the short distance. Howboats which started from shore to their rescue were useless in the ice and slush. Much of the time it was necessary to draw the boats across the ice, and then row in the open spaces.

Three of the sailors broke through the dangerous slush and were pulled out of the water by comrades. One, named Dave Ellis, had both hands and feet frozen.

The crew got to Tadoussac and were taken to Murray Bay by the Canadian Government steamer Lady Grey. From there they came by train to Quebec.

GIVE PROFIT TO EMPLOYEES

Detroit, Dec. 31.—The Ford Motor Company will announce to its employees the establishment of a bonus and profit-sharing plan so broad in its scope and provisions as to include every employee, from the humblest floor-sweeper to the departmental executives.

A cash bonus of a million dollars, payable immediately, and based upon daily income and length of continuous service with the company, to its 90,000 employees, with a total expenditure of close to ten million, is contemplated. Employees will also be made partners in the Ford enterprises by the introduction of a system of investment certificates. These will range from \$100 to \$1,000 and will be negotiable and non-assignable.

EXPECT GOVIN TO STAY IN OFFICE

QUEBEC, Dec. 31.—Sir Lomer Goivin says it is useless for him to comment upon the frequent rumors regarding his possible retirement. In reply to a direct question put to him to-day by your correspondent, as to whether there was any truth in the rumor that he was shortly retiring from the provincial premiership, Sir Lomer said: "No matter what I say these rumors will go on just the same."

There is a stronger feeling now that in the intentions of Premier Goivin to remain for some time. A few months ago, everybody was talking of his approaching retirement, but to-day it seems to be conceded that Sir Lomer will not go, at least until the present session of the Legislature is over and probably not even then.

FIFTY-FIFTY COUNCIL BREAKS

WINNIPEG, Dec. 31.—Labor aldermen no longer claim equal representation in city council. This is the outcome of the recent utterances of Alderman Wighton, who has indicated that he will not support all labor issues, but will be independent. On the other hand, non-labor aldermen expect Alderman Wighton to break up the 50-50 council and thereby make less tense council sessions during the year.

Rumors that a coalition may be established between Labor and Citizen aldermen have not carried much weight, because the aldermen have not been able to figure out how certain aldermen of the opposing factions would be willing to work together peacefully, after the numerous rows during the last twelve months.

RECOVERY DOUBTFUL

St. Johns, Nfld., Dec. 31.—The hope that the heroic work of the sailors of the steamer Ingraham, who saved three survivors of the wrecked Belgian steamer Anton van Dril yesterday, had not been in vain, was held out here today. They were severely frostbitten and the chances for recovery are still doubtful.

AN INTERNATIONAL CITY

PARIS, Dec. 31.—The internationalization of Constantinople has been decided upon along lines laid down by Premier Lloyd George in a recent speech, according to the Matin. The rest of the Turkish government may be transferred to Asia Minor, either to Brusa or Konia. The details of the form of international control to be established over Constantinople are not yet known.

A St. Paul train jumped the track near Mitchell S. D. overturning six coaches, but injuring only four of the passengers.

THE CANDIDATES IN THE ELECTION

Polling Day To-morrow, January 1

Shantz, Roy
Steinberg, J. P.
Wing, W. E.

FOR WATER COMMISSION.
(2 TO BE ELECTED).
Beam, E.
Braun, Casper
Hainsworth, John.

DEATH'S RESULT FROM MISTAKE

Owen Sound, Dec. 31.—After lingering in agony for nine days, Mrs. William Charlton of Derby township died at the General Hospital of burns caused by an explosion of gasoline. On the evening of Dec. 19 she went to fill a lamp, and by mistake picked up a can of gasoline which had been left in the shed by men who had been running a sawing machine. She was close to the kitchen stove, and the fumes caught fire, causing an explosion that enveloped the whole room in flames.

Catching her fifteen-month-old daughter from its cradle she rushed out and rolled it in the snow bus before the flames were extinguished and she and the child were horribly burned. The little one died the next morning, and from the first but little hope was entertained of her recovery. Her husband and one son are left.

WET IF OUT FAR ENOUGH

Montreal, Dec. 31.—All United States ships, unless owned by the United States Government, are at full liberty to be "wet" outside the three-mile limit, is the statement made by Leo S. Tobin, Passenger Agent of the White Star Dominion Line, who has discussed the question with headquarters in New York.

NEW SHORTHAND RECORD

New York, Dec. 31.—The world's official shorthand speed record was broken by Nathan Behrin, an official stenographer of the Supreme Court of New York, county, who wrote 324 words per minute, with two errors.

The contest was held under the management of the Certified Shorthand Reporters' Society of New York at the annual convention of the New York State Shorthand Reporters' Association.

Mr. Behrin held the former official speed record, having written 278 words a minute in a contest held in 1913.

WON'T TAKE A CHANCE

WINNIPEG, Dec. 31.—Mischa Elman, the Russian violinist who was to have appeared in Winnipeg this evening, cancelled his engagement at the last moment. He declined to allow his \$100,000 arm to undergo vaccination at the border, he wired from Chicago.

On the western coast of England the average rainfall is four times greater than on the eastern coast.
