COMMITTED FOR TRIAL

Strong Evidence Against Helen Moulton

Charged With Stealing \$420 From John F. Burns Bonds Fixed at \$4000.

Helen Moulton, actress and percentage woman at the Standard, was held over to the territorial court for trial by Magistrate Wroughton in the police court this morning on a charge of stealing from Jann F. Burns the sum of \$422.96 in currency and gold dust.

The alleged crime for which Miss Moulton is held over for trial occurred yesterday morning in one of the boxes at the Standard sale

The trial occupied the entire more ing and was not finished until nearly one o'clock, when after the evidence was all in the magistrate decided that there was sufficient to hold the prisoner to the territorial court and fixed her bonds at \$4,000

At the conclusion of the evidence for the prosecution the attorney for the defense asked that the case be dismissed as there was not sufficient evidence to connect the prisoner with the crime, but the magistrate was of a different opinion so the defense was also put in in the effort to have the case dismissed but the circumstances and evidence were too strong and the magistrate decided as above stated.

plainant was the same as has often peen told before. Burns having, as he claimed, obtained some money from Chas. Lamb of Eldorado with Dawson about three weeks ago, had STRIKERS started in to spend a pleasant evenng before leaving. He had gone into he Standard theatre about o'clock and after taking a drink or two had been invited into a box by Helen Moulton. He had known the occused before in Fortymile. He had emained in the box drinking with the accused until about 7:30 in the morning. During the early hours of the morning several of the other womes had come in and he had bought Refused to Allow New Men to the box and the three had left the o'clock Miss Sanford had come into saloon together at 7:30. Getting outside of the building the two women had disappeared suddenly. His mind became a blank and he knew nothing more until about 10 o'clock when he awoke in the Melbourne saloon in a dazed condition, and putting his hands in his pockets discovcred that he was short of his money. He had spent between \$50 and \$60 buying drinks for the woman but had the balance at his last recollection just before parting with her in the: morning. He admitted under crossexamination that it was no unusual thing for him to spend \$50 to \$100 in an evening as he was a liberal fellow when he could afford to be.

Other evidence for the prosecution
