

Some index Files only hold papers loosely—do not compress; therefore are either deficient in their capacity or awkward in size. Others have weak friction clamps which are little better than none for the same reason. Others hold their contents by clamping one edge of the papers at one side of the File, while the unclamped portions spread apart like an open fan. Others hold their papers by passing wires through one end near the edge, and these wires are liable to tear out unless the papers are very strong or handled with great care. These Files are also sometimes clamped at the end where the wires pass through, and the long unclamped part of the papers spread as before suggested. All these Files must either be held in the hands or carried to a table, desk or other object while in immediate use, and their operation is complicated, slow and laborious.

## THE TUCKER FILE

SURMOUNTS ALL OF THESE OBJECTIONS AND GOES FAR BEYOND, AS FOLLOWS:

- FIRST.—Letters of the index are in plain sight and furnish complete classification to induce and aid accuracy in filing papers.
- SECOND.—The entire contents of the File are uniformly compressed into the smallest possible space with perfect ease by means of the lever clamp.
- THIRD.—No parts of papers filed are mutilated by wires or otherwise.
- FOURTH.—The upright position of the File when in immediate use renders it always most convenient when hung up where its weight is supported.
- FIFTH.—Any letter or paper may be instantaneously placed within or taken from the File without disturbing other papers.
- SIXTH.—Papers may be read without being taken from the File.
- SEVENTH.—The clamping device is of strong malleable iron, handsomely plated; not complicated; cannot get out of order.
- EIGHTH.—The operation is easy and simple and cannot be misunderstood.
- NINTH.—Is adapted to use in Automatic Suspension Cabinets, to which we have exclusive rights.
- TENTH.—Is adapted to use in little cabinets which lock, and afford system and privacy for every man's business, large or small.
- ELEVENTH.—It impresses favorably every man who gives it his attention for a moment.
