Plenty of Fresh Milk for Everybody

AS YOU get into the woods a way, such bulky foods as liquid milk cease to be even luxuries — except to those who have discovered the great convenience of KLIM.

KLIM users have milk in any quantities and for all uses—regardless of their distance from the dairy. It's an

ideal food supply for hunting lodge parties or for the lone camper.

You carry the powder, which is only one-eighth the weight of liquid milk, and by simply restoring the water, make pure liquid milk.

Write us for literature and prices if your grocer can't supply you with KLIM.
