Every thing has two distinct principles to its nature ; one

#### THE PRINCIPLE OF LIFE THE OTHER

### THE PRINCIPLE OF DEATH.

So long as the principal of Life predomin-ntes, Health is enjoyed. When the principle of Death, Sickness tekes place. How is this accounted for?

By the principle of Death, I mean the rinciple of decomposition of decay, which is the hour of birth, to that of our final exit.

While the ratural outlets—the pores—the
bowels—and all other directories of the body,
discharge these decayed particles as fast as they are generated. we are in a state health; we are free from the presence of the

When, from breathing an impure atmosphere, living in a vicinity of swamps, or where we are in the constant habit of coming in contact with bad swells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being infected from a living body under the influence of disease in a malignant state; or se ence of disease in a malignant state; or se-dentary occupations; or, in short, any cause which promotes decomposition fasterthan the stomach and bowels and the other excretorie sommen and sowers and the other exerciones can remove, naturally; we are then in a state of disease. And should the cause which pro-duces this state of the body remain, and noth-ing be done to drive the accumulated and accu-mulating impurities out of the body, the prin-ciple of death or decomposition, will become ramount, and the last glimmering of life dearamount, and the last glummering of life de-art from the once animated clay.

How then, shall we counteract these death ispensing influences? How?

PURGE!——————Yes—I say Purge!

PURGE! Yes-I say Purge!
The magic in that word shall yet be under-PURGE!—Yes—Isay Purge! The magic in that word shall yet be understood, it this hand or brain can accomplish so mighty an explanation. Yes, purged be that pain in the head, the books, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause.—I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposite of decomposed particles upon the organ or patherent the pain is seated. And purging discharges this impurity by the bowels, and continuing the practice daily will care every complication of die-case; and will prevent any one from becoming seriously indisposed; even when in constant contact with the most malignant fevers which cannot by possibility scriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. Hippocrates anys, "Purgation expulses what must be expulsed, and patients find relief; if, on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expulsed."

The subscriber of this has resided in every The subscriber of this has resided in every rariety of climate, and by always purging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may "all such the state of him who is never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandiather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, in doses of from 2 to 16 pills par day, to satisfy myself as to their innocence. months daily, in doses of from 2 to 16 pills per day, to satisfy myself as to their innocence. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so pretated by disease, provided he is capable of taking exercise at all, may lengthen his life. taking exercise at all, may lengthen ins instituted to 60 years, by continuing to assist his natural functions with the BRANDETH VEGETA-BLE PILLS. Death never 'can take place antil the Principle of Decomposition puts out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of six kness.

#### MORISON'S UNIVERSAL MEDICINE.

NOTICE.

THE Subscribers, general agents for Mo-rison's Pills, have appointed William Whittaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGGE & CO. LEGGE & CO.

That the public may be able to form some idea of Morison's Pills by their great censumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public, the number of stamps delivered for that medicine amounted to three million, nine hundred and one thou

Sand.

The object in placing the foregoing powerful argument in favour of Mr. Morison's sys.em, and to which the public attention is directed, namely, that it was only by trying in innocuous purgative medicine to such an extend that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extend and in manner prescribed by the Hygeists. How, therefore, can they (much less individually) know any thing about the exten of its properties.
