

SAFETY of PRINCIPAL, CERTAINTY of INTEREST

A writer in one of our financial journals recently said that real estate mortgages combine the two great essentials of a conservative investment—safety of principal and certainty of interest.

To those who have funds for investment only in small sums this most desirable class of security is not directly available. They may, however, secure all those advantages by investing in the bonds of this Corporation, which are based on upwards of twenty-eight millions dollars of carefully selected first mortgages on improved real estate. These bonds may be had in denominations of one hundred dollars. They are a security in which Executors and Trustees are expressly authorized by law to invest trust funds.
