## **Cow Profits**

Cow comfort and cow sani-tation result in more cow profits, and this alone should induce any farmer or dairyman to install our Soutary Steel Stalls and Stanchions. They allow free passage of light and air in a stable and ensure perfect sanitation and ventilation-a result impossible with

AN INTERESTING GOOD BOADS REPORT A valuable contribution to the "Good Boads" movement, now apreading so rapidly throughout Canada, is the "An-nual Report on Highway Improvements" for 191, issued by the Department of Public Works of the Province of Ontario. elderable detail, describing the best methods of road construction in Ganada and the United States. Until the advent of the automobiles, the principal types of roads were dirt, gravel, macadam and telford, but it soon became apparent that noise of these would stand for any length of time. It thus traffic processary to try scome new form of con-struction. This led to experimentation AN INTERESTING GOOD ROADS REPORT

struction. This led to experimentation with various different materials, among Quite a number of concrete highways have been built in the last few years. Like all new materials, the early experi-ments were not a complete success. This was due principally to the lack of exper-ience in handling the material for this purpose, and at first there were as many different ways of building the roads as light of the experison gained by these pioneers, several forms of construction have survived.

there were roads themelves. But in the light of the experience gained by these plonears, seven it can be association of American-Portland Cenent Manufactures recently held in Chicago, a sumber of papers were read by leading the sevent of the sevent sevent of

HE MAN who buys a Feed without knowing its ingredients would buy a 'pig in a poke' any day.

## **Publicity versus Secrecy**

We are firm believers in the doctrine that if your goods are right the fact cannot receive too much publicity.

The value of a Feed is equal to the sum total value of its ingredients.

If the ingredients are valuable and rich in feeding qualities, secrecy is unnecessary and undesirable, -Publicity is the thing, and the more of it the better.

The proportion of each ingredient entering into the manufacture of CALDWELL'S MOLASSES MEAL is *plainly* printed on every tag.

This is for your protection, and we believe it's the main cause of our success.

We are the originators of the Pure Cane Molasses idea in a Molasses Meal, and are the only manufacturers using this ingredient exclusively.

The result is that

is higher in sugar and lower in fibre than any of the imported competing varieties.

This statement can be easily proven by submitting samples to the Government Analyst.

In Caldwell's Molasses Meal we offer you a Feed scientifically prepared, highly palatable, very nutritious, possessing a certain therapeutic value and of guaranteed composition
