The Secret of the Barn

The secret of good barn service lies in the roof. Dozens of alleged "roofings" flood the market, but if you want a roof that will not flood your barn specify the good, old-fashioned covering of great-grandfather's day—the White Cedar Shingle.

Some of the higher-priced artificial "roofings" will last 5, 10, or possibly 20 years, if given a frequent coat of paint, and weather permitting; the wooden shingle has been known to last 80 years, and to defy successfully rain, frost, snow, sun and wind all that time.

There is no better shingle made to-day than

BEAVER BRAND WHITE CEDAR SHINGLES

BEAVER Shingles are made in New Brunswick, Canada, from sound, live logs, by skilled sawyers. They are cheaper in first cost than any "made up" roofing, and they cost little or nothing for repairs. No paint needed. Easily fixed to stay fixed.

Your Future is in the West

The fertile prairies have put Western Canada on the map. There are still thousands of acres waiting for the man who wants a home and prosperity. Take advantage of Low Rates and travel via

Canadian Pacific

Information from Canadian Pacific Ticket Agents, or W. B. Howard, District Passenger Agent, Toronto.

LIFT YOUR CORNS OFF WITH FINGERS

Tells How to Loosen a Tender Corn or Callus So It Lifts Out Without Pain.

A noted Cincinnati chemist discovered a new ether compound and called it Freezone, and it now can be had in tiny bottles as here shown for a few cents from any drug store.

You simply apply a few drops of Freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying Freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns, or corns between the toes, also toughened calluses, just shrivel up and lift off so easy. It is wonderful! Seems magical. It works like a charm. Your druggist has Freezone. Ask him!
