

More and Better Light—On Less Oil

Beats Electric **Test This Wonderful Coal Oil Mantle Light** **Saves Money**

ACCCEPT this free trial offer. Find out at our risk how your home can be better lighted than a city home. For here's a light that *beats* gas, beats gasoline, beats even the tungsten electric light. It is five times as efficient as the ordinary round wick flame lamp. Who says it is? The Government Bureau of Standards says so — 34 great universities say so — their exhaustive tests have proven it. This light was awarded the gold medal at the Panama Exposition as the world's best. To have this wonderful light in your home means money saved. It pays for itself, using less than half as much oil as round wick, open flame lamps.

Half the Oil Goes Twice as Far

Air is the most abundant thing in the world. Out of 94% air mixed with the vapor from the oil, the Aladdin, by the use of a mantle, creates the

most mellow, restful, steady light ever produced. It burns 70 hours on a gallon of oil. *Saves eye strain* and brings cheer and contentment to the home. Dim lights have caused untold eye strain, headache and misery. The poor lamps of the country are responsible for the fact that one out of every five among country children has defective vision while only one out of twenty among city children is similarly afflicted.

The Aladdin banishes dim light and eye strain. Saves the children's eyes, encourages study and reading—makes them glad to stay home.
