

"There was never a time when the benefits of Life Insurance meant so much to the home-makers of the country as they do to-day. In this crisis, when the future is uncertain, it is the duty of every father to see to it that the home he is establishing for his family is made secure."

—PETER McARTHUR,

## What Life Insurance Means to Canadians

"A FRIEND in need is a friend indeed." Life Insurance has proven a friend to the Canadian people passing through the dark and anxious days of the war. The Canadian people have shown their appreciation.

During the past year new insurances to the amount of \$20,124,563 were placed on the books of the Mutual Life—an increase of thirty per cent. over the previous year.

The Savings Banks have never before held such heavy deposits. This makes Life Insurance possible to many who previously thought they could not afford to buy.

Many people are putting to good use their share of the immense amount of money in Canada to-day available for investment—for they feel safe in investing money in insurance, knowing it is a "sure thing." They feel that, as Peter McArthur says—

"In this crisis, when the future is uncertain, the home should be made secure."

Write for booklet entitled "Ideal Policies."

Metal Covered Building

Farmer's Garage

Frame Building

**PRESTON**  
**Implement**  
**BUILDINGS**

Erected in a Few Hours!

NEVER was the farmer in greater need of the best buildings and equipment. For everything that helps increase production will make tremendous profits for the farmer to-day. And never was the farm better able to stand the cost of improvement.

Here are two PRESTON buildings. The hard work, the time-killing job of figuring and cutting, is done on both at the factory.

They come to you ready to erect—all pieces cut and marked, windows made and mounted, doors ready built, all hardware complete. For the larger buildings, the trusses are assembled. A handy man can do the job in a few hours—to last.

The Metal Shingle & Siding Co., Limited - - PRESTON  
Makers of Preston Barns, Storage Buildings,  
Garages and Implement Sheds

Think of the big saving in materials and labor!

And remember building is cheaper to the farmer now than before the war. A fine, sturdy, good-looking Preston Implement Building covered with "Acorn" Corrugated Iron costs \$259 (20 feet x 24 feet—10 feet to the eaves). That means 117 bushels of wheat will buy it. Or 170 bushels of potatoes. Before the War it would have cost 224 bushels of wheat or 336 bushels of potatoes.

Get the book about PRESTON buildings—pictures, prices, sizes. Learn how factory service and farm building experts will save you time and worry in building and planning. Write to-day.

## Every Family Can Afford a Phonola

MODEL B  
Double Spring  
Motor, Quiet,  
Smooth Running

**\$45**

Anyone can afford to pay \$45 for this genuine "Phonola."
