

**A NEW  
WHITE  
OAT**

**RENNIE'S  
"BUMPER KING" WHITE  
OATS**

We have just imported this new oat from the North of Ireland. It is of surprising weight, extremely early, and highly productive. Change your seed this year; the older varieties at best can only yield light, "chaffy" oats, poor and unprofitable—Rennie's "Bumper King" is new, extra heavy, and will yield twenty bushels more per acre than the older sorts.

Field report: Medium length straw, stands up well; large, full, compact head; large plump grain; early.

**GOSSIP.**

Mr. A. C. Hallman, Breslau, Ont., writes: "My Holsteins are wintering well, and the demand never was as good. My prizewinning imported bull, Nanuet Pietertje Paul, is leaving his rich impress on his offspring. I have a very fine bunch of bull calves, from three to six months old, which, if not previously sold, will make someone hustle in the ring. In Tamworths, I am also strong. My imported boar, Knowle King David, is going to be a clinker, both as an individual and a getter. His pigs are strong, of the right type, and large litters. I have eight young sows bred to him, due to farrow in April and May, that will come in just right for the rise in hogs, which is sure to come soon. My imported sow, Knowle Sultana, recently farrowed another litter of fourteen strong pigs, sired by the imported boar. It will be remembered that she won first

prize at Toronto when only a little over thirteen months old, and suckling ten pigs. I have five sows left of her last litter, which I am breeding for July and August litters. I think they will equal their dam some day. I have also one of her boar pigs left, which is doing fine, and will make a good herd-header."

Two young Aberdeen-Angus bulls, also females, are advertised for sale at a bargain by J. W. Burt, Coningsby, Wellington County, Ont., near Erin Station (C. P. R., Elora branch).

Mr. Wm. Willis, Newmarket, in ordering a change in his advertisement, writes that he has for sale two good young bulls, and a number of good heifers. The bulls are bred from good producing dams, and sired by Earl Denton, by the richly-bred Arthur's Golden Fox, who is backed by extra good producing stock.
