

LOUDEN

Sanitary Steel Stable Equipment

What it Costs and How it Pays

THE LOUDEN Sanitary Steel Stable Equipment costs no more—frequently less—than equipment made from lumber.

PAYS, because it is easily installed, because it is permanent, and because your cows will be cleaner, more comfortable, and easier to care for.

LOUDEN

Steel Stalls, Pens and Mangers

Better your stable conditions, lessen your labour, save your time, and benefit your cows. A stable is incomplete unless equipped the Louden way. Write to-day for catalogue and special plans for building or re-modelling your barn.

Our Architectural department will supply Free Barn Plans.

Deering New Ideal A Money Saving Binder

THESE Deering binder features appeal to the farmer. The elevator, open at the rear, delivers the grain properly to the binding attachment. Because the elevator projects ahead of the knife it delivers grain to the binder deck straight. A third packer reaches up close to the top of the elevator and delivers the grain to the other two packers. A third discharge arm keeps the bound sheaves free from unbound grain.

The T-shaped cutter bar is almost level with the bottom of the platform and allows the machine to be tilted close to the ground to pick up down and tangled grain without pushing trash in front of the knife. Either smooth section or serrated knives can be used. The Deering knotter surely needs no recommendation.

The Deering local agent will show why Deering New Ideal binders are the standard of binder construction. See him, or, write to the nearest branch house for a catalogue.

Lightning Protection

WHAT are you doing in the way of protecting the big outlay of money you have invested in farm buildings and live stock AGAINST LIGHTNING? Without protection you risk your investment in farm buildings and live stock in every lightning storm. You are carrying insurance; sit down and figure what your loss would be if you were burnt out by lightning after collecting your insurance money—also take into account the high cost of building material and stonemasons' and carpenters' wages.

The matter of lightning protection has been taken up by the Government Agricultural College at Guelph, Ontario, also by the Mutual Fire Insurance Companies of Ontario at their annual meeting in Toronto in January, 1914, and they strongly advocate all farmers to protect their buildings against lightning, and to see that the rods are properly put on, as the erection of the rod is one of the most essential parts. They advocate copper rods.

We manufacture the highest-grade copper rods and their equipments that can be put on the market, and are the oldest exclusive lightning rod manufacturers in Canada.

All our agents and their erectors are experienced men trained by the company, so that perfect installation of the rodding can be depended upon. Write us, and we will have our local agent make an estimate for you.

We want a few good live men for territory still open in Ontario, Quebec and Maritime Provinces.

DOMINION LIGHTNING ROD COMPANY
Dundas, Ontario

The expense of living

makes adequate protection for the family more imperative than ever.

Why delay when such protection can be obtained, while at the same time making provision for your own old age.

Life Rate Endowment Policies completely meet the circumstances.
