#### The following article which appeared in a late issue of the London Advertiser will be read with much interest by our C. M. B. A. members. BENEFIT SOCIETIES.

C. M. B. A. NOTES.

A little stir has been created among the members of the various benefit societies, by the announcement that the Dominion Government will at the next session intro duce legislation placing them on a level with insurance companies, requiring from them the same deposit which the com-panies make, and bringing them under the same degree of governmental surveillance. Another report of a still more startling nature is that they have always been under the provisions of the Insurance Act passed some years ago, and that inasmuch as they have never made the returns or the deposits required by that Act, they are liable to heavy pecuniary fines, which may be inflicted at the instance of any one who may choose to bring an action duce legislation placing them on a level

It is said that insurance companies have suffered so seriously from the growth of benefit societies that they are determined to invoke the aid of both Parliement and the societies of both Parliament and the courts to check these organizations, or, at all events to make them submit to the same regulations

which control the companies. We are inclined to doubt if there is any just grounds for the fears that have been expressed. It is quite possible insurance expressed. It is quite possible insurance people may be annoyed at the progress of these societies, which must, to some extent, affect their business, and it is quite possi-ble they may be anxious to check their operations by all legitmate means. But, despite what is said to be the opinion of some legal gentlemen, we do not think benefit societies come under the purview of the Insurance Act or that they are lia. of the Insurance Act, or that they are lia-ble for , ny neglect in complying with its

Frenchmen, as a rule, are not drunkards; but in the parish of M. Sibon may be found the drinkers of absinthe and brandy, the numbers of whom are, unfortunately, increasing. Our temptations are more vehement. This is a capital sign-the devil has had to put out more power: besides, so long as the temptations displease us, they are as good as conquered. Sometimes we our-selves make these temptations more ve-hement by arguing with them, or by being too frightened about them. 4. New kinds of temptations assail us, and new kinds of faults are disclosed. #### PECKSNIFFISM.

The attempt of England to pose before the world in the attitude of a virtuous nation, shocked at the sufferings of the Jews in Russia, is decidedly editying in view of her own proceedings towards those peoples that have the misfortune to live under her rule of "blood and iron." The immediate occasion upon which she has seized, as a text from which to preach humanity to the govern-ment of Russia, is the recent outbreak in that country of popular antipathy to the Hebrews, which, springing at first from an apparently trivial cause, has assumed very much the same proportions and character-Lamb, " Veal, " Dressed Hogs. Well, God would not let this be, if He did not think you had got on: take it as your mortification, and your oxLy one just now, and never mind other mortifica-tions: the effort is just the violence which, our Lord says, take, the kingdom of heaven by force: ask God for sweetness, and com-plain to Him of His having taken it away. III. Hebrews, which, springing at first from an apparently trivial cause, has assumed very much the same proportions and character-istics as the crusade against the "heathen Chinee" in California. The present anti-Jewish movement in Russia, however, is purely an ebullition of mob violence, for which authorities at St. Petersburg are no more responsible than the Cabinet at Wash-ington was for the Know-Nothing outrages in the United States a quarter of a century ago. It is essentially different with regard to English persecutions; for they are the deli-berate acts of the London government and its agents, perpetrated under the name of law, backed up by armed force, and sealed in the blood of innocent and defenceless hum-an beings. The Journal de St. Peters-burgh commenting on the proceedings of the meeting at the London Mansion House, February I, is entirely justified in saying that Englishmen would consider it strange if similarly sweeping language was indulged in by Russians in discussing English legisla-tion for Ireland, where the people are now practically deprived of all protection of law, and placed at the were cursed any country,--for whose behoof they are being shot, bay-onetted and imprisoned, or else evicted and cast out of their homes, to die of starvation, by the administrators of what is there mis-called British "government." So it is in every country where English rule prevails. It was not a mob, but the Government of England, represented by its officials and its armies, that slaughtered the blacks in Jama-ica, and scourged their women with whips plain to Him of His having taken it away. III. I am afraid, you will think me provok-ingly and perversely cheerful. But the fact is, I have no eye for darkness. I can never see anything but light anywhere. It puts me quite in spirits, arguing with these dis-couragements. If you fret be more gener-ous with God, and then you will get it more quickly over; generosity makes sharp work with difficulties, but, it is a very sharp operation: but, sometimes it is safer to be longer: vehemence does not suit brittle things. But, you ask, will this state of things last long? Certainly not, IF you keep your spirits up. What you shall do, what is best for you just now is to increase your devotion to the salves! I lay great stress on this. But, what if I die as I am now? Well,

Ninety years ago, their first church, the cath dral of the Holy Cross, was building; John Adams, President of the United States, being the President of the United States, being the first subscriber. There are now 30 Catholic churches in Boston.

A young man of Wakew, Belgium, who had maliclously interrupted a jubilee sermon, soon afterwards swallowed by mistake half a glass of vitriol, and died after hours of dreadful suffering. He declared that his death was a punishment from Heaven.

A few days ago, says the Revista Cato-lica, Mrs. Eva Buob following the good ex-ample of her brother, who had shortly before embraced Catholicity, abjured Pro-testantism in the church of the Sisters of Charity, Pergamo, Italy, receiving bap-tism, confirmation and Holy Communion from the hands of the bishop.

By order of the Italian minister of publie instruction, two inspectors have been deputed to visit the Catholic schools in Rome. It is said they highly approved of the arrangements and general manage-ment of these schools, but it is feared their visit is connected with some designs of the minister, Dr. Baccellic, to destroy the independence of the schools, and interfere with the Catholic instruction therein given.

The Courrier de Bruxelles says that the The Courtier de Bruxenes says that the total value of the property belonging to Catholic foundations of piety, charity and education, confiscated in Belgium since 1864, to the profit of the State or of anti-Christian education, is not 13,000,000 francs, as represented by certain journals, but no less than 18,750,000 francs, accord-ing to the estimate formed by M. Tack, member for Courtrai, who has made a spe cial study of the question.

Catholic colonization is going forward prosperously in Arkansas. The Benedic-tine German Colony in Logan county was commenced only four years ago; yet now it has a Catholic population of twelve hundred souls, six churches and four schools, and two other schools will soon

be opened. The congregation of St. Scholastica's church has increased so rapidly that it is intended to enlarge the church edifice to twice its present capacity. There of them were severely frostbitten. For-are four other Catholic colonies that are tunately, among the lading of the ship

And it is this people, whose hands, for centuries, have recked with blood and crime, that now underreeked with blood and crime, that now under-takes to prate of justice and humanity before the world! Surely, Dickens, when he drew the character of the "pious Pecksniff," must have had the peculiar idiosynacrices of his fellow-countrymen before his mind's eye; for nowhere, save in England, perhaps, could such an exhibition of hypocrisy on a colossal scale be produced as is presented in those English meetings to condemn 'outrages' which become insignificant when compared with those that England herself is continu-ally perpetrating.— Irish Amer can.

UNEXPECTED SUCCOR.

Providential Escape of Shipwrecked Voyagers.

At 9 o'clock on the morning of the 30th of last December, the steamer Moravian, of the Allan line, bound for Liverpool via Halifax, while on her way from Portland rialitax, while on her way from Fortand to the latter place, ran ashore on the southwest point of Mud Island, some fifteen miles from the town of Yarmouth, Nova Scotia. A stiff breeze was blowing at the time and a heavy surf running, and at the time and a heavy surf running; and the situation was one of peril. It was found that the forward compartments had filled with water and orders were given to lighten cargo while preparations were made to land the passengers on the Island, with a supply of food and elothing. The landing was safely effected, but the cold was intense and some of the party were severely frostbitten. On the ship's manifest was a consignment of St. Jacobs Oil, which severely frostbitten. On the snp's mannext was a consignment of St. Jacobs Oil, which the Toronto House of A. Vogeler & Co., of Baltimore, Md., had just shipped to Francis Newberry & Son, London, to fill English orders.
