

LATEST BY TELEGRAPH.

Ireland. London, Aug. 10.—Parnell last night sent the following to the President of the Land League at Buffalo. "I strongly disapprove the action of the Philadelphia Land League; it ought to be reversed. This League voted to pay the expenses of certain members who announced their intention of joining Arabi's army in order to oppose Great Britain.

Claremorris, Aug. 11.—Scrab Nally, one of the defendants in the Irish state trials at Dublin in January, 1881, was arrested last night under the "Carfew" clause of the Repression Act. Nally had just arrived from Balla.

Nally was cautioned and discharged. The court directed that he must henceforth reside at his own house at Balla. Dublin, Aug. 11.—Henry George, arrested at Henry yesterday, was liberated today. The police accused him of associating with suspects.

Stephen Meany, correspondent of the N. Y. Star, was arrested at Ennis this morning under the Repression Act. S. J. Meany was arrested Thursday night while ailed in at Ennis under a warrant issued by Earl Spencer, charging him with being a dangerous character. Meany was subsequently released on giving bail for his good behavior for six months.

One hundred and seventy suspects were in prison in Ireland Aug. 2nd; 231 out-rages, including two murders, occurred in July; the numbers of evictions, 321 families representing 1,619 persons. Half the evicted families were reinstated as caretakers or tenants.

Washington, Aug. 11.—A somewhat spirited correspondence is passing between the postal authorities of Great Britain and the Chief Post Office Inspector of the United States in regard to stoppage of the delivery of certain mail matter arriving in Great Britain from the United States. The British post office authorities not only prohibit the circulation through the mail of American newspapers containing matter adjudged by them to be inimical to the interests of that Government, but also indict registered letters and packages suspected of containing seditious information of dangerous preparations.

New York, Aug. 11.—A Commercial's Dublin special says: "It is the purpose of the Government to prevent the transmission to America of all valuable information regarding the situation in Ireland. All news hereafter sent abroad will have to undergo the supervision of the Government, and will be colored to suit those in authority."

London, Aug. 11.—The annual convention of the Irish Land League at Great Britain is sitting at Manchester to-day with closed doors. Connors, member in Parliament, presides.

London, Aug. 13.—Accounts agree that the state of Ireland is greatly improved under Spencer and Trevelyan. The arrest of Henry George is sharply commented upon in the press, and has given great annoyance to the Government. His association arose from visiting a shop to purchase shirt buttons. His well known pamphlet was deemed a piece of conviction.

London, Aug. 13.—The Inspector-General of Constabulary forwarded last evening to the county inspectors throughout Ireland £180,000 for distribution among the constabulary.

Dublin, Aug. 13.—It is stated that guns have been placed in the upper yard of the Castle, and other precautions taken in view of a possible riot during the O'Connell demonstration this week. Large bodies of infantry paraded the streets with guns to-night, causing excitement. The authorities are reticent in regard to the increased vigilance exercised by them.

Cork, Aug. 12.—In the event of the resignation of Miss Fanny Parnell being interred in Ireland there will probably be a great demonstration at the funeral.

London, Aug. 12.—The Standard says several Irish members of Parliament intend to address their constituents during recess with a view of testing the extent to which the Government will allow freedom of speech.

London, Aug. 12.—Three hundred delegates were present at the sitting of the annual convention of the Irish Land League at Manchester to-day. A resolution of sympathy was passed relative to the death of Miss Fanny Parnell. A report was presented stating that the Highlanders of Scotland were ripe for a land agitation. It resolved to alter the title of the Land League to "The Land and Labor League of Great Britain." Upon a resolution for enjoining the peasant proprietors among the objects of the League, an amendment was proposed embodying the principles of the Davitt land nationalization scheme, but after an animated discussion the original resolution was overwhelmingly carried. A resolution was passed recommending the farmers in Ireland the justice and expediency of aiding the cause of laborers and recommending the payment to the Irish members of Parliament for their services in the cause of the Land League.

The Government is making extraordinary efforts to insure the prevention of an outbreak by the Land Leaguers and sympathizers on the occasion of unveiling the monument to O'Connell next week. Reinforcements have been pouring into the city the past month, and at present there are more troops in the barracks here than at any time since the outbreak in 1848. Manchester, Aug. 12.—At the demonstration to-day in connection with the Land League convention, Cummins presided. Biggar and O'Connor were present. Cummins claimed that the Irish party had forced the House of Commons to yield much more than the House intended. He urged the party to continue its united efforts to abolish the Union. A resolution thanking the Irish National party in the House of Commons was unanimously passed. Biggar claimed the Irish party contains some of the ablest men in the House of Commons. O'Connor urged his party to renew their efforts at the next general election.

Egypt. The Conference at Constantinople on Thursday issued a protocol signed by all the Powers, for joint international supervision of the Suez Canal. Chief Pasha will probably be Premier of the Egyptian Ministry, which will contain most of the old members. It is said that Arabi has had the Governor of Beheras executed. His forces are now two miles from Ismailia, and he is building a formidable redan near Ramleh. The Duke of Connaught has made a personal inspection of Arabi's position. Nothing definite is settled in regard to the Anglo-Turkish military convention. The Conference will probably hold its last meeting on Monday. De Lesseps' conduct is said to be causing serious complications.

The Scots and Grenadier Guards arrived at Ramleh on Saturday. Thousands of Arabi witnessed with interest the advent of these noted regiments. It is estimated that 40,000 British troops are now in Egypt, or on the way. The Government feel convinced that the war will not last more than a few weeks, although the special party anticipate trouble after Arabi is deposed. All foreign guards have been withdrawn from Alexandria, leaving British troops alone to protect the city. Religious services were resumed on Sunday at Alexandria. The Sultan's attention has been called by the Powers to the Arabi agitation in Syria. The Porte has declared that Arabi, besides being rebellious, is acting in opposition to the Koran. The Anglo-Turkish Military Convention is still uncompleted, and the Porte insists that no Turkish troops shall land in Egypt until the arrival of the Turkish Commissioner. Arabi has been invited to lay down his arms, and until his reply is received the proclamation styling him a rebel will not be official. A party from a gunboat went ashore on Sunday near Fort Mekeks and destroyed a quantity of the enemy's stores. In the skirmish several Arabs were killed. Lord Blandford with a patrol party narrowly escaped capture. On Saturday a large force of rebels threatened the Suez Canal, when the British commander took possession of the waterworks. He will not allow any more interference by De Lesseps.

The Porte is much exercised by the protest of Osman, ruler of one of the Sudan States, against sending Turkish troops to oppose Mohammedans. Similar action is expected on the part of other Mussulman States. German merchants are agitating for indemnity for losses sustained in the Alexandria riots. An outbreak at Port Said is hourly looked for. Artesian wells have been sunk and furnish good water for the troops. The Khedive has furnished a corps of guides and interpreters to the British army from his household guards. The wording of the Anglo-Turkish military convention is still in dispute. The Ambassadors are anxious to end the Conference. Fort Mekeks has been reinforced in view of an attempted surprise. Several slight skirmishes have occurred, but no important movement has taken place. From Egypt, through financial sources, comes a rumor that Arabi will submit to the Sultan.

COMMERCIAL. THE CROPS IN ONTARIO.

It is usually the case that the aggregate product of a country as large as Canada is not appreciably affected by any local cause such as thunderstorms, tornadoes, sporadic attacks of insects, or floods. During the past fortnight, however, the weather has been so treacherous and violent that, through a large part of Ontario, the farmers will suffer very serious losses. Elsewhere in this issue we print reports from carefully chosen locations. These reports go to show that, south of a line drawn from Goderich to a point a few miles north of Toronto, the crops have experienced such damage from wind and rain that the farmers' receipts, if not the actual yield of the crops, will be very seriously reduced. The reports of sprouting wheat in Kent, Huron, Middlesex, etc., portray a condition of affairs which, together with the low prices likely to prevail, renders the disappointed farmer the object of sincere sympathy. In an ordinary season the crops of wheat, barley, and oats are harvested before the weather breaks up, but the inclemency of the spring this year three things backward with the result we witness.

The barley crop appears to be the one that has suffered most. From the tenor of the reports the yield of barley is being sensibly reduced. That was promised ten days ago. West of Toronto it appears as though very little of the barley will be fit for brewing purposes. East of us the weather has not been so bad; indeed the reports from Prince Edward County speak of a late rain as a great blessing, a longed-for rain which has benefited the crop. If the weather should speedily reverse the barley crop in a great part of the Lake Ontario counties can yet be saved in fine order, and the root crops have had such a soaking as will be the making of them. North of Toronto, where the season is later, the damage seems to have been confined to beating down the rank-growing crops, and no very great loss seems to have been endured.

The conclusion to be arrived at is that, though all the storms of the last fortnight, except the general rain at the close of the week, were more local disturbances on a very small scale, yet there were so many of them that the damage inflicted amounts to a national loss. The extent of it may be realized when it is pointed out that, in eighteen or twenty of our best grain growing counties, a longed-for rain of the wheat and barley has been exposed to weather such as will probably reduce the selling value of that half by 25 or 30 per cent. In the county of Kent alone, the damage suffered during the last few days is enough to convert a harvest which promised to be one of the best into one that will furnish a very poor return indeed for a year's faithful toil.—The Globe.
