THE APPROACHING ENGLISH CONFERENCE.

The oldest and largest of the Annua Conferences has still to meet. Its convocation will complete our long list of ministerial gatherings within this ecclesiastical year. It shows, perhaps as significantly as any other evidence, the strength of Methodism, when we remember that there is scarcely a month without a Conference. while in some there hare four or five. in Ireland, and culminates in the old Island ed. A CALL FOR MISSIONARIES -We have re ceived another interesting communication from Nova Scotia, urging the opening of a mission in that department of the Dominion. We have conferred with the proper officers of the Church and of the Missionary Society, and are enabled to promise the friends who desire the ministers of our Church among them, in that field, that a deputation will visit them at an early day, wi h a view to meet their wishes. We have delayed e publication of this item until we could speak in the name of the Church. We hope that success may attend this proposal.

We clip the above from the Christian sending Methodist missionaries to this destitute Province.

Every Christian denomination would hail with pleasure the co-operation of any new agency in advancing the Kingdom of Christ amongst our population; but there seems to us something incongruous in the intention announced above. Very painful, even in the distance, has seemed to all Wesleyan General Conference of the Northern States bitions, require any arguments as to the suspicion, and one said he would rather anciliatory.

Hitherto we, as a Methodist Body, have been saved from unseemly wrangling among Churches of the same name. Having outlived principally our difficulties with other denominations, it is delightful to contemplate a long reign of peace and love. Are we now to see the introduction of an element which must bring some degree of agitation and discord?
