Your first idea may be that you will buy cheap paint and thus save money. True economy in painting, however, is not what the paint costs per gallon, but what a gallon will cover and how long it will last. Figure it yourself—cheap paint does not cover well, it does not wear; in a year or so you have to repaint. The labor of applying the paint is two-thirds of the cost of your job. You can't afford this labor expense every year. Buy a good paint, it will cover more surface, look better and last longer than cheap prepared paint or hand-mixed lead and oil. Ask the S-W dealer in your town and he will tell you all about SWP.

Gourlay pianos are high-priced, but worth the price. Thoroughness in con-struction insures Gourlay Pianos against Loss of Tone, and tone is the important factor in any Piano. In every Gourlay Piano the expert knowledge of its build-ers and the determination to use nothing but the best either in labor or material produces a sympathetic richness of tone that is unmatchable among Canadian Pianos.
