MESSES. HANINGTON BROTHERS:

Dear Sirs,—Three years ago I was going to write you how much benefit I received from taking two bottles of your QUININE WINE AND IRON, but I am in very weak and low, with no appetite for any sort of food, after a course of attacks of dyspepsia in my back. Again, after the fire, I was nearly made lame, and was restored to strength and activity by taking two bottles of your wine, and last May I had to have recourse to the QUININE WINE AND IRON, and was in the same fortunate condition.

While we are trying to get a person come in who had left her situation to go into the Hospital, being so weak she could not work. I said, I will send you four more of the wine, and you will get several dollars a month take two bottles of HANINGTON'S QUININE WINE AND IRON with you, and if you are not able to pay the seven dollar, I will pay you for the medicine. At the end of the month she was quite smart, and is still filling the situation. I send you these few lines for the benefit of society. If you trouble to publish it, as there are so many sick at present. It would greatly benefit persons after *Sickness in Tropical Countries*, and would most certainly prevent sickness by strengthening and building up the system.

Yours very truly

JANE A. LEE.
