Friday evening a woman who resides in Lower Cove did not realize how very near she was to being arrested for theft. Perhaps she may yet have to appear in court to give a reason for her actions. The woman was seen on one of the benches near the Young monument, and after looking about for some time to see if she was detected, and thinking no person was watching, she stepped over to a flower bed, plucked a few tulips and placed them in a paper. She made three or four trips to the flower bed with the result that this morning only a couple of tulips are left. While the woman was thus engaged, and thinking she was undisturbed, a couple of men, one of whom recognized her, were watching all the time, and were greatly tempted to inform the police.

END YOUR ROOF TROUBLES WITH AMATITE ROOFING

A Roof that Really Protects

The more carefully you study the subject of Ready Roofings the more you will be convinced of the great superiority of AMATITE.

The average buyer sends to a few advertisers for samples, picks out one that looks tough, and sends in his order to the nearest dealer.

If the dealer doesn't keep the kind selected some other kind which he has in generally bought instead.

That is a good way to get a leaky roof.

The careful buyer is more particular. He knows that any roofing will last for a little while without attention, but he wants to postpone the time and cost of renewal as long as possible.

He is figuring next year's cost as well as this year's. He thinks of the money he will have to spend after a few years for a new roof if this one won't last any longer. If he can get a better roofing at equal cost that will last longer, he is so much the gainer.

That kind of calculation is called thrift. The thrifty buyer sees important differences between AMATITE and the other roofings.

The other roofings either require a coating with a special liquid every year or two, or periodical painting. Right there is a future expense to be counted by the thrifty buyer.

There are more arguments for AMATITE than these. Our Booklet tells them. Send for free Sample for a postal to nearest office.
