New Health and Strength from DR. CASSELL'S TABLETS.

"Had it not been for Dr. Cassell's Tablets I believe I should never have worked again; I hardly think I could have worked again; I hardly think I could have lived." These are the words of Mr. Ernest W. Barrett, of 32, Cecil-road. Gloucester, England, a young man, now in the perfection of health and vigour. And he goes on: "The Tablets cured me of a long and serious illness when all methods I tried had failed, and now I am as well and fit as anyone could wish to be. "It is eight years since the trouble came on. I caught a cold, which turned to pleurisy and rheumatic fever, and for nine weeks I lay between life and death. When at length I could be taken down-tafrs I was a wreck of my former self, wasted to a frame and weak as a baby. One side was all drawn up, and if I tried to straighten myself the pain was intense. One side was all drawn up, and if I tried to straighten myself the pain was intense. I used to hobble about on sticks or get my father to take me out just a little way, leaning on him all the time. But, instead of getting better I got worse. I had the best advice; but all the medicine I took proved quite useless. It was thought I was going in a rapid decline, and that nothing could save me. I was just a frame of bones by this time, and I can't tell you how weak and miserable I felt.

"However, my father chanced to read about Dr. Cassell's. Tablets, and got me some. I shall never cease to be grateful for the result. I began to mend almost at once. Slowly my strength returned, I the strongest purgatives had to be used.

the strongest purgatives had to be used. He was wasted to a perfect shadow, and so feeble that sometimes we thought he was dead.

I-HOME-ECONOMY BUILDING 2-VARIED INDUSTRIES BUILDING 3-COURTYARD ARTS BUILDING 4-PLAZA DE PANAMA 5-LA LAGUNA DE LA FLORES

TUST sixteen miles north of the Mexican Boundary, San Diego is holding an exhibition which declines to be overshadowed by San Francisco. It illustrates the historical development of the Pacific Coast, not only by means of exhibits, but also in its architecture which reproduces the features of the beautiful old mission built by the colonizing priests of pioneering days. These priests both preached and practised the doctrine of irrigation as applied to agriculture, and the San Diego Exhibition is therefore making a special display of all methods of intensive cultivation of the soil. The exhibition has already been a remarkable success, and at the same time is bringing many visitors to Canada, as a large proportion of the Americans visiting the Pacific Coast in connection with this exhibition are making round trips which bring them back through Canada and enable them to see the great three million acre irrigation project of the C. P. R. east of Calgary, the largest of its kind in North America.
