Fundy Grindstones

An exchange prints the following item. Has any of our readers seen this most interesting industry?

"From the bottom of the Bay of Fundy come some of the finest grind stones in the world, and the manner in which they are procured is simple and ingenious, the stonecutters making the exceptional tide perform the hardest part of the work. When the tide is out, which happens twice a day, the workmen quarry the stones from the solid rock and fasten them to a big flatboat. Then in comes the tide, a mighty flood rushing in as though the great ocean had suddenly changed its mind. Wonderful sight it is, rising often as high as a house. And now the men have nothing to do. The tide lifts the boat, and up comes the stone with it. Boat and stone are then brought close inshore where the stone is removed at leisure when the tide is out."

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by Druggists & Dealers.

An Interesting Coincidence

(Toronto Mail and Empire)

As a matter of fact, all the British newspapers that took the Boer side when Canadian soldiers were in South Africa fighting in the British army, are opposed to the Borden naval scheme, and are approving the Laurier obstruction, as they approved Sir Wilfrid's objection to the sending of troops to South Africa.

AN OPEN LETTER

Results So Surprising That They Seem Marvelous Are Commending Mi-o-na. The One Dependable Stomach Remedy.

Mrs J A Pillow of North Street, Gananoque, Ont., says: "Mi-o-na is worth its weight in gold for quickly and permanently curing dyspepsia. I became so bad that I was unable to leave my bed. There was a constant burning in my stomach, I would belch up gas every few minutes and could eat but very little, as the food would quickly ferment and make gas that caused a serious depression of the heart. Perspiration would break out all over my body. I would be come so weak that I could not stir and would often fall on the floor in a helpless state. The pains in my stomach were terrible. I could find no position in which to sit or lie without suffering and I was so nervous that the least noise affected me. Headaches were constant. I would become dizzy and spots would appear before my eyes. I had no ambition to get around and everything seemed to tire me. The first box of Mi-o-na gave me more relief than anything I had previously tried. The second box of Mi-o-na cured me. I am well and strong and I have not had an hour's suffering since. I will always feel grateful to Mi-o-na for the cure given me and glad to recommend."

In the face of such evidence it is easy to understand why I D Clark feels as sure in saying to you, money back if Mi-o-na fails to relieve, either trivial or serious stomach trouble.

A working train and crew of men under the supervision of Trackmaster Murphy, have been working the past few days on the track just east of Round Hill station, where an accident occurred to the freight train two weeks ago. Forty carloads of gravel have been dumped into an excavation caused by a washout, yet the track continues to settle, and considerable work remains to be done at this point.
