## THE MARKET

### THE LOCAL MARKETS

Planet Office, Tuesday evening, September 17.

John Waddell, of the firm of J. B. Stringer & Co., gives The Planet the following grain gossip:

Wheat—Receipts are small in past week. Millers are good buyers for all offering at 66c. Large rail receipts are necessary to keep the mills going full time, and carloads are daily arriving at the mills. Prices may be better as the season advances. Every one hoping so.

Barley—Light receipts, good demand, chiefly for export. Street prices 90c to 93c.

Oats—The old ones are sold up very close, if not entirely, by the growers anyway. Probably equal to a few carloads could be found among the dealers and they are finding it slow work riding themselves of them, even at greatly reduced prices. The new are not on the market, and will be later than last season, partly owing to the recent rains, by which more or less damage has been done. There are plenty of old beans at most distributive centres yet, and new will not be wanted for a time.

Prices on the new will run lower than was thought possible as situation was viewed a few weeks back. The decided improvement since in the prospects, accounts for the lower tendency market has taken.

The following are the prices:

Wheat 66c.

Mixed oats, 31c.

White oats, 32c.

Barley, 90 to 93c.

Corn, shelled, 53c.

Alsike, \$6 to \$7.

Timothy, \$1.00 to \$2.25.

Hides, 15 to 20c.

Horse hides, \$1 to \$2.50.

There was the usual large fruit market on Saturday and also a large vegetable market, as well as lots of vegetables. About the only changes are in tomatoes, which are selling at \$1.00 a bushel, with not many offered. Potatoes remain about the same price as quoted last week, namely, \$1.25 per bag. Grapes are a little down in price and are likely to go lower, it is said, the present price is 30c, per basket. Eggs are the same, having remained at 10c per dozen for the last four weeks.

White fish, 10c lb., dressed.

Lake Huron trout, 10c lb., dressed.

OUTSIDE MARKETS.

HENRY CLEWS' REPORT.

Henry Clews, in his weekly report to this journal, says:

The future of the stock market is still uncertain. In spite of large earnings and important negotiations no important upward movement can be maintained in the face of the uncertainty about money, and the corn crop. The best that can be expected of corn is a yield of 1,300 to 1,400 million bushels. An early frost, however, would seriously injure late planted corn, upon which such a yield chiefly depends; so it must be remembered that there is still great risk in the crop falling below these figures. A loss of 600 million bushels or over cannot be ignored, even if largely compensated for by better prices and good crops of other sorts. The deficiency of the corn crop will be felt later on, the movement of corn or its equivalent in cattle not beginning until after the harvest.
