

responsible according to human or legal responsibility, being in one sense insane.

The Prisoner—You have that thing wrong side up.

The Witness—Perhaps I have.

The Prisoner—That's very poor thinking on a very poor position for you to take.

The next witness called was Mrs. Parker, widow of the prisoner's cousin. Her evidence went to prove hereditary insanity.

She said that her husband had died in the asylum. She also testified that Guilem wanted to educate her thirteen-year-old daughter so as to marry her. She thought then he was crazy.

On cross-examination she said she had not forbidden him the house until he had paid those attending to her daughter; she did not like to have him come at all.

The Prisoner—They were very poor, and I used to go down there and give them money and they appreciated that very much. I suddenly I became pleased with the little girl, who was very smart. She was too young, however.

The prosecuting attorney ventured the opinion, that if the girl was pretty and smart, Guilem might have wanted to marry her without being crazy; in fact that it was a strong argument the other way.

## SENSATIONS OF THE WEEK.

A Senator's Son Awaiting Trial for Stealing \$1,500 Cheque, a Baiter, Dentist on the Ragged Edge.

James D. Lewis, Jr., son of Senator Lewis, was arrested Saturday night at St. John's, charged with stealing a cheque for fifteen hundred dollars, drawn by Mr. Alexander Gibson on the Bank of B. N. A., the cheque being the property of the Bank.

This cheque Lewis presented Saturday afternoon at the Banking House of Simpson Jones & Co., and obtained the cash, endorsing it "George Lewis," but the firm had their suspicions aroused by the date it bore, of Nov. 19th, and made enquiries at the Bank which revealed that the cheque had been given them to cover fifteen hundred dollars paid on a telegraphic order from Gibson and should have been cancelled. Jones & Co. followed up their man, recovered the cheque, and his arrest followed, but the cheque cannot be found. Suspicion pointed to Chas. E. Furlong, ledger keeper of the Bank, as the accomplice of Lewis, and he was shadowed but eluding the officers he left town about six o'clock Sunday evening, being driven away by a friend.

The police followed an hour later, searching in all directions, and at ten o'clock he was captured by officer Ring while boarding the night train for Bangor at Westfield.

HALIFAX, Dec. 1.—In the police court to-day, Dr. Charles William Marter, formerly of St. John, and a woman named Celia Seymour, were each fined \$50 or two months' imprisonment for lewd conduct.

The charge was made by Marter's wife, heir to the Mackay estates valued at twelve millions, whom he deserted in Boston three years ago. She came here two months since, and has since then dogged him day and night. She took the room adjoining his office, but he did not dream she was there. She watched him closely and last night burst into his office, caught him in the act, and had both arrested. Marter and the Seymour woman remained in the cells all night. The affair has caused a great sensation here. Many people urge that there was no law for the conviction, and that the Magistrate has no right to punish for immoral offences committed in a private room. Mrs. Marter has instituted proceedings for a divorce.

## CHEAP READING FOR 1882.

Terms for the Magazines and Papers.

## CHICAGO POST CLUBBING RATES.

## A Sense of Weariness.

is often felt by persons who cannot locate any particular disease. If they work it becomes labor; if they walk they soon tire; mental efforts become a burden, and even joy is dimmed by the shadow of this weakness which is cast over their lives. Recourse is had sometimes to stimulants of a dangerous character. The advice of physicians to rest from labor produces no happy results. Why? The system is debilitated and needs to be built up properly. *Parvian's* is the only tonic that does this. Like the electric current, it permeates the entire system, and harmonizing with the corporeal functions, it raises up the debilitated, brings the color to the cheek again, and hope to the despondent. It does its work promptly and well. Sold by all druggists.

## Corns! Corns!

Tender corns, painful corns, soft corns, bleeding corns, hard corns, corns of all kinds and of all sizes, are alike removed in a few days by *Putnam's Painless Corn Extractor*. Never fails to cure, never causes pain, never leaves deep sores that are more annoying than the original disease. Give *Putnam's Painless Corn Extractor* a trial. Beware of substitutes. Sold by druggists everywhere.

—James Hayden, about 22 years old, was drowned in the Keenebecan Monday morning by breaking through the ice about six miles above Rouses Point. He was skating to town.

## CHICAGO POST AND BOARDMAN.

SACKVILLE, N. B., DEC. 8, 1881.

## The Quebec Elections.

Overwhelming Defeat of the Grit-Bourgeois Party.

Conservative Government Sustained 49 to 16.

The Quebec Elections took place on Friday last. In spite of the capital voting up against the Government on account of the Laurier-Senechal libel suit, the people have sustained the Conservative Leaders and dealt a most disastrous blow at the Liberal party. Their defeat is even more complete than in 1878.

The people appear to like to groan under the burdens of the N. P., to have cotton kings and woolen lords and giant monopolies thriving on their vitals, and they appear delighted to accept all the other enormities committed by the present party in power. Torontoe, who sold his party to July for the speakership was defeated, as was also Perrault who has been agitating independence.

## Temperance and Life Assurance.

An English Life Assurance Company—the United Kingdom Temperance and General Provident Institution for mutual Life Assurance—commencing business in 1840 has two departments; one is general life assurance, the other only the total abstinence of long standing are admitted. The accounts of the two departments are kept separate, so that the results of total abstinence as promotive of health and longevity are exhibited for a great number of years. For the past fifteen years the figures of the Company are:

GENERAL SECTION.

Years. Deaths. Actual Deaths. 1869-70 549 411 1871-72 523 511 1873-74 512 514 15 years 2184 1566 618

TEMPERANCE SECTION.

Years. Deaths. Actual Deaths. 1869-70 549 411 1871-72 523 511 1873-74 512 514 15 years 2184 1566 618

Thus it will be observed that 18 lives were saved—or rather 618 expected deaths did not take place owing to Total Abstinence. Say each member is insured for \$1,000. The Company gains the additional premiums, and also the interest on the \$618,000 insurance for as many years as the 618 live beyond the time estimated, or say \$50,000 per annum. It may also be noted in favor of Total Abstinence, during the first five years 20 per cent. less temperance people died than the others, and the next ten years 33 per cent. less, or out of 2,184 deaths that were expected according to the ordinary rates, no less than 618 were saved. Could there be a more certain and absolute demonstration of the value to a man of sound total abstinence principles?

## The Bank of Prince Edward Island.

The Prince Edward Island papers do not give much information about the Bank, and no reliable statement of its affairs has yet been made public. Nobody appears to know where the Cashier has gone, nor does it seem that the Directors have made any special effort to find him. It is pretty clear that the Cashier has to account for \$600,000 of overdraft accounts; the amount that may be realized out of the debts due to the Bank no one can tell. It would be absurd to assume that all will be realized, but no doubt many of the creditors are good for the amounts due by them. Among the heavy debtors of the Bank are Michael Fogarty, \$45,000; John H. Goss, \$50,000; Longworth & Co., \$45,000; Patrick Fogarty, \$27,000; Hyndman Bros., \$16,000; J. T. & W. L. Dean, \$18,000; Charles Yates, \$10,000; C. H. Stackpole, \$18,000; Thomas Fogarty, \$5,000; 425 Charlotte Street, \$1,900; all of these are Charlottetown houses. Shedd, Moore & Co. of Belfast, P. E. I., are set down at \$45,000; John A. McLeod, of Kensington, \$20,000; Peter Girvan, of Alberton, \$18,000; R. B. Reid, of the same place, \$3,000; George Howard, of Crapaud, \$10,000; J. G. McDonald, Carleton Place, \$5,200; J. J. Fletcher, Mount Stewart, \$5,000; J. E. I., \$7,500; and S. H. Brown & Co., of Stanley Bridge, \$18,000. Harper & Webster, of St. John's, are set down at \$25,000. These same foot up somewhere in the vicinity of \$440,000 and therefore represent two-thirds of the amount named.

## The Ontario Bank is a well advertised institution. It was the means of showing that the Party and Reform elements in the Grit party were somewhat like the virtues of the Elder Stiggins, whose extreme sanctimoniousness was tempered by a fondness for pine apple rum and Mrs. Weller, Sr. To its former President, (Mr. Simpson) was the "Big Post" appeal made, in which he was notified the Reform party would make a grand stand the following Saturday, that only half a dozen could "come down HANDSOMELY," and inviting him, "WILL YOU BE ONE." Notwithstanding

ing the advantages of the N. P., misfortune and disaster appears to follow the Bank. About one-half of the capital stock has disappeared with its rest and a party of enraged stockholders met last week at Toronto to execute summary vengeance on the management. The meeting was stormy. Sir W. P. Howland, the President, was not permitted to take the chair, and he was fiercely attacked for making false returns, robbing the shareholders, etc. A lengthy motion was unanimously agreed to, providing for the proper Parliamentary notice for the reduction of the capital stock and for the calling of a special general meeting to receive the resignations of the whole Board of Directors. The capital has been sunk in advances to lumbering and other concerns, from which it could not be realized. If the Government had accepted the offer of the Grit Syndicate, Sir W. P. Howland would have made a sorry spectacle as President of the Canada Pacific Railway Company. His personal appeal to the capitalists of the world on behalf of the Pacific Railway, would have been highly effective.

—The railway meeting at Tidnish reported in another column reflected unnecessarily on Hon. Messrs. Townshend and Black. The grievance of the complaint appears to be they did not attend the meetings and make speeches. No doubt they could have made a little cheap trap capital, by a little cheap shouting, but it is questionable whether they would not have been open to the charge of misleading the people if they lent themselves to an agitation for the railway before they saw some practicable scheme ahead for carrying it out. One of them is a member of the Local Government and the other of the Legislative Council, and it would be in those spheres that their influence as public men could be exerted with effect, yet as a matter of fact the Government of Nova Scotia could not give five dollars to this work and honestly discharge its other obligations. How then as public men could they hold out any hope the road would be built? The complaint is often heard that politicians are too much in the habit of making promises they do not perform and gulling people generally with an article popularly known as "flap-doodle." But this is the first occasion when we have heard the opposite complaint from a public man, viz. that they were not "flap-doodle" enough. We are sure when the people of Tidnish look at this matter in their sober second thoughts, they will have greater regard for politicians who go in for "plain sailing" and refuse to hold out any false hopes in obedience to a little popular clamor. That the railway will be built seems almost unquestionable, but it will be carried through for purposes and by means entirely outside of and beyond local politics.

—The Fredericton evening Herald, Mr. Luggins' new paper, has been received. It presents a fine appearance typographically. Mr. Luggins is an able and experienced journalist and will make an interesting paper. He does not define his position on local politics. He will probably support the Government. A Fredericton paper that does not support the Government of the day would be a *lusus naturæ*. In Dominion politics the new paper is violently Grit. In its salutatory it emphasizes the term "Liberal" as if any merit resided in a name. The true test of a party's fitness to rule the country is not its name but its works. A party that has no better capital to commence business with than its name, and that endeavors to borrow and trade on measures of Progress and principles of Liberty that have long been the common heritage, can possess but little original merit of its own.

—Our estimable and amiable contemporary C. E., on the 17th ult., protested loudly against any change in the Customs service at this place because the duties have been "efficiently performed" by Mr. Dixon. After two weeks thought C. E. admits on 1st, there is a necessity for a change by stating there is a "need of making provision to watch the Coast." We are pleased that C. E. thus adopts our view of the question, for it is manifest if the duties were already "efficiently performed," the further provision C. E. speaks of would be an unnecessary and useless expense. The future will perhaps develop the fact that a reputation for landing goods without the formality of entering cannot all be attributed to the Bay Coast, but that a share of it can be honestly borne by An Lac and Dixon's Landing.

P. E. I. Bank—Explanation.

DEAR SIR:—You are hereby authorized to contradict the statement that has been going the rounds of the papers for the last day or two to the effect that we owe the Bank of P. E. I. \$25,000. The statement is very, very largely incorrect, and whilst our friends will be glad to hear this, our enemies (if we have any) are hereby cautioned against circulating a report which is circulated to do us damage financially.

HARPER & WEBSTER.

Sackville, Dec. 7th, 1881.

—Diphtheria is very prevalent in the western part of P. E. Island. Six children, all of one family, were carried away last week.

## THE CAPE TORMENTINE RAILWAY.

Resolutions Meeting held at Tidnish, N. B., December 1st, 1881.

A large and spirited meeting was held in school house, Tidnish Cape Roads, on Thursday evening, 1st Dec., 1881. Robt. McElinam, Esq., was chosen to the chair and W. D. F. Ward, secretary. The meeting was very enthusiastic, showing plainly the deep interest the people are taking in this very important matter. Capt. J. C. Brundage was the first speaker. He pointed out the importance of the immediate construction of this railway. J. S. Hickman, Esq., addressed the meeting at length and in the most eloquent and forcible terms; first, showing the great commercial importance of the Cape Tormentine Railway in opening up an immense coal trade and bringing the people of P. E. I. into quicker communication with the mainland than any other route. Secondly, the feasibility of the work, as there were only three very small bridges (or culverts) on the line and no engineering difficulties as the road was level as the floor. He further stated that he had made a personal inspection of the line to Cape Jourdain and nothing struck him more than the fact that nature had marked this as a great and only natural communication with P. E. Island (Cheers). Thirdly, he could not but censure our Local members for coolness in this great inter-provincial work, and himself (J. S. H.) and two other men could do all their work in one week, for which they get the above salary (Load cheers). Fourthly, he called the attention of the electors of Westmorland County, N. B., to the importance of supporting the man who in the House of Commons would give his whole influence in favor of this great work, as two-thirds of the projected line is in the above named County. Mr. Hickman resumed his seat and prolonged applause. Capt. J. C. Brundage then addressed the meeting. In the course of his speech he read a deed which he had obtained from the people giving a free right of way of 27 miles out of the whole distance of 33 miles, showing the genuine interest the people have in this work. The speaker then stated he had the honor to be one of a committee who waited on the Hon. Sir Charles Tupper, Minister of Railways and Canals and was happy to say that the Hon. gentleman said he would send him an interest in the progress of this great inter-provincial work. He was also happy to say that the five members from P. E. I., supporting the present Government were now strongly in favor of the Cape Tormentine route.

—The speaker then moved the following resolution, seconded by Councillor Stephen Oxley, Esq.: "Resolved, That the people of this place and Amherst have just reason to complain at the conduct of the Hon. C. J. Tupper, Esq., in not assisting us in securing the Cape Tormentine Railway to our coast. Therefore resolved, We do hold our representatives in the Local House responsible for any longer delay in this matter. We ask it from them as our right, not as a favor, to do all in their power to hasten this much needed work, which will when completed effect a general benefit to their constituency.

The above resolution was passed unanimously. The speaker took his seat during prolonged cheers. Mr. Dowling, of Amherst, was then called upon and responded in a very able and appropriate speech favoring the immediate construction of the work. (Cheers.) Councillor Oxley followed in a few well chosen words showing his great interest in this work. The meeting then listened to remarks by the following gentlemen, viz.:—Mr. Doyle, of P. E. I., J. W. Jackson, T. R. Lowe, W. F. Ward, and our venerable chairman, R. McElinam, Esq. It was then moved by Capt. J. C. Brundage and seconded by Mr. William Brown that the secretary forward to the Amherst Gazette, Maritime Sentinel and CHICAGO POST for publication a report of this meeting. The meeting on motion adjourned to meet again at seven o'clock on roads and weather will be suitable.

—In France a pearl costing sixteen dollars is now imitated for fifty cents or a dollar, and so successfully as to be sold at the price of the genuine article to any one not a veritable expert, and even the latter class are often puzzled. The artificial pearl, however, is simply a glass bead or globe which is first coated on the inside with a glue made of parchment, then treated with a peculiar so-called "essence," after which it is filled with wax. The essence is the chief costly ingredient and is obtained by rubbing together white fish, so as to remove the scales; the whole is then strained through linen and left to deposit its sediment, which is the essence in question. It requires about 17,000 fish to produce a pound of the costly essence.

—The laziest boy exists in Connecticut. His mother sent him to a neighbor's house after a cup of sour milk. On being told that there was none but sweet milk to be got, he helped himself to a chair, and said, "Well, I'll wait till it comes."

King Titchew, having got tired of butchering his relatives and courtiers, now proposes to turn his royal attention to building a chapel.
